 is indicative of

We deeply appreciate your continuous patronage, and are striving to merit a continuance of your good will.

Dependable Stock • Value Service • Honest Dealing

Let us help you plan

A WELL PLANNED and planted home is the cherished hope of every American family. Pleasing and satisfactory results are only attained through a careful study of your grounds, the selection and planting of the proper material. Hundreds of Kentucky homes, both large and small, have been successfully landscaped from plans and service rendered by our firm. Because of our knowledge, experience and training we are in a position to serve you well. Satisfactory results are assured at surprisingly low cost. LET US HELP YOU.

No Charge For Consultation at Nursery

There are no charges for consultation or suggestions at the nursery. If you will bring your plans, measurements, pictures, etc., we will be pleased to give you valuable assistance.

A Gift for You

To help you get the best results from your plans and plants we will send, absolutely free with every order, a copy of this booklet:

"HOW TO PLANT"

The instructions are clear and cover planting, pruning, feeding, spraying, cultivating, and other details. This is a part of the service we give that you may have the greatest success and joy from Hillenmeyer stock. If other questions arise from time to time, write us—we are at your service.

Making of Plans

As the time required to make a plan depends on so many things, it is impractical to give an estimate unless we have sufficient information.

Where simple plans are required locally we make no charge when we furnish the nursery stock.

In cities close by we make no charge for a plan if the resultant business justifies the trip.

Where consultation or advice only is requested out of the city we will be glad to furnish this at a nominal fee, based on distance and time required.

We make many plans for customers who cannot come to the nursery or who live too far distant to justify a personal call. If you will send the dimensions of your property, location of house (with blue prints if possible), the direction it faces, trees, drives, walks and a Kodak picture we can usually make a very satisfactory plan. For plans through the mail we ask a deposit of \$5.00 which will be deducted when sufficient stock is purchased. For simple suggestions through correspondence there are no charges and we are always ready and pleased to render such service.

When to Plant

We usually start to plant evergreens in September and continue until late spring except during those times in winter when the ground is frozen or it is too wet.

Shade Trees, Shrubs, Small Fruits and Roses are best planted after we have had sufficient frost to kill the foliage and make them dormant.

Perennials are best planted in early fall or spring.

Liberal Payment Plan

While we sell for cash, credit will be extended to responsible customers with satisfactory references. For those who want to buy or plant and cannot pay all at one time we will be glad to arrange a deferred payment plan. Tell us about how much you want to spend, how much you want to pay at a time and no doubt suitable arrangements can be made.

No Agents

We sell direct and our contacts are usually made by appointments. Refuse to buy from anyone who represents himself or herself as our agents. **WE HAVE NO AGENTS.** When dealing direct you get full benefit of our facilities.

NURSEYMEN ~ HORTICULTURISTS ~ LANDSCAPE ARCHITECTS

Evergreens

FOR wonderful effect bath winter and summer, the Evergreen has no superior. Succeeding in almost any soil, with their range of color, form and habits of growth they find a place in almost any landscape plan. Our trees are all several times transplanted, dug with a ball of earth, and the finest to be had.

Abies - Fir

Abies concolor. Silver or White Fir. The best of the Firs, and rivals Colorado Blue Spruce in showiness. We think it is one of the choicest of Evergreens and an ideal specimen plant. In colors it ranges from pale blue-green to blue, the needles being attractively distributed around the branches. Once established it is better able to withstand drought, as well as the soot and dust of city conditions. Of comparatively slow growth but as hardy as an oak.

	Each
2 to 3 ft.	\$ 3.00
3 to 4 ft.	4.00
4 to 5 ft.	5.00
5 to 6 ft.	6.00
6 to 7 ft.	7.50
7 to 8 ft.	10.00

QUALITY as well as **PRICE** should be considered in buying Evergreens. Ours are acclimated and freshly dug.

Staked Type

Juniperus Pfitzeriana
(Pfitzer Juniper)

Spreading Type

Picea Excelsa—Norway Spruce

Chamaecyparis (Japanese Cypress)

Chamaecyparis pisifera. Sawara Cypress. The foliage somewhat resembles that of the Arbor-Vitae except that the tree is more graceful. Light green, silvery beneath, and of erect growth. Can be used in foundation planting or as a specimen.

C. pisifera aurea. Golden Sawara Cypress. Has all the characteristics of the preceding except that the foliage is of a lighter green and is bordered with yellow in early spring.

C. pisifera plumosa. Plumed Cypress. Feathery green foliage, broad, symmetrical and dense. Stands shearing well.

Prices of the above 3 Chamaecypari:

	Each
2 to 3 ft.	\$2.00
3 to 4 ft.	3.00
4 to 5 ft.	4.00
5 to 6 ft.	5.00
6 to 7 ft.	6.00

C. lawsoniana glauca. Blue Lawson's Cypress. One of the hardiest of this type, and prized for its beautiful bluish foliage. Not as robust as the pisiferas but fine for foundation planting.

	Each
1½ to 2 ft.	\$2.50
2½ to 3 ft.	3.00
3 to 3½ ft.	4.00

C. obtusa. Hinoki Cypress. Bright green lustrous foliage. This is an ancient variety in Japan, and has been cultivated for centuries. Much used in topiary work.

	Each
2 to 3 ft.	\$3.00
3 to 4 ft.	4.00

C. pisifera filifera. Thread-branched Cypress. One of the best dwarf Evergreens. Unusual foliage, drooping and graceful, resembling cords of green. Compact; fine in color both winter and summer.

	Each
2 to 3 ft.	\$3.50
3 to 4 ft.	4.00
4 to 5 ft.	5.00

Suggested Doorway Planting

The Place to Buy Evergreens is From the Nurseryman
Who Grows Them. We Have No Agents.

Residence of Mr. and Mrs. Wm. Dunn, Barrow Road

Attractive garden and outdoor living room. This and front planted during early summer of 1940 when plants were in full growth. Note Hemlock hedge and 30-foot Ginkgo (Maiden Hair). A Hillenmeyer job, comprising proper design, material and execution.

Juniperus - Juniper

J. communis ashfordi. Ashford's Juniper. Columnar in habit of growth with silvery green foliage. Much like Irish Juniper except not quite so compact or pointed and larger in diameter. Holds color well in winter.

	Each
2 to 3 ft.	\$2.00
3 to 4 ft.	3.00

J. communis depressa plumosa. Purple Spreading Juniper. A very unusual variety, remaining close to the ground and in summer has a silvery reflex to the otherwise gray-green foliage. In fall and winter assumes a purplish cast that is unusual in Evergreens. Fine for rock-work or low planting.

	Each
18 to 24 in.	\$2.50
2 to 2 1/2 ft.	3.00
2 1/2 to 3 ft.	4.00

J. communis hibernica. Irish Juniper. Of decided columnar form and immediately attracts attention. For formal work, especially in contrast with other plants, it has decided advantage over anything you can use for such work. It is slender in habit and needs no shearing.

	Each
2 1/2 to 3 ft.	\$2.00
3 to 3 1/2 ft.	2.50
3 1/2 to 4 ft.	3.00

J. excelsa. Greek Juniper. An unusually attractive, dwarf, pyramidal tree with compact, bluish green foliage. It is vigorous in growth and not particular as to soil. Its good characteristics are rather difficult to describe but it is very pleasing wherever used.

	Each
1 to 1 1/2 ft.	\$1.50
1 1/2 to 2 ft.	2.50
2 to 2 1/2 ft.	3.50

Juniperus Hibernica (Irish Juniper)

J. chinensis armstrongi. A compact form of Juniper pfitzeriana. Desirable where the stronger growing type gets too large. Valuable for cemetery lots and small areas.

	Each
1 1/2 to 2 ft.	\$2.50
2 to 2 1/2 ft.	3.00
2 1/2 to 3 ft.	3.50

J. chinensis mascula. Green Chinese Juniper. A select green type that is hardy and of good form. Branching habit, slightly more open than others; the unusual terminal growth makes it highly desirable in winter. Holds its color when other Evergreens are dull.

	Each
3 to 4 ft.	\$3.00
4 to 5 ft.	4.00
5 to 6 ft.	5.00

Juniperus Virginiana Glauca

JUNIPERUS—Continued

J. chinensis pfitzeriana. Pfitzer Juniper. The most popular of the spreading types. The branches spread horizontally, with the terminals slightly drooping. It lies close to the ground, and for edging larger plantings has no superior, supplying the flowing lines demanded in landscape plantings. Foliage gray-green in summer and winter and will withstand the soot and dust of cities.

	Each
1 1/2 to 2 ft.	\$2.00
2 to 2 1/2 ft.	2.50
2 1/2 to 3 ft.	3.00
3 to 3 1/2 ft.	3.50
3 1/2 to 4 ft.	4.00
4 to 4 1/2 ft.	5.00

Staked Juniper Pfitzeriana. Frequently the usual Pfitzer Juniper cannot be used where a semi-erect plant is needed. Therefore, we have "staked" a quantity of selected trees, training them to a single stem allowing side branches to develop. They then make an attractive vigorous plant for restricted areas.

	Each
2 to 2 1/2 ft.	\$3.00
2 1/2 to 3 ft.	3.50
3 to 3 1/2 ft.	4.00

J. virginiana cannarti. Cannart's Juniper. A fine pyramidal, compact-growing Evergreen with wonderful winter color, and the best of its type. It is perfectly hardy and never suffers winter-burn, common to some other Junipers.

J. virginiana glauca. Blue Juniper. One of the best trees offered today. It grows pyramidal but has graceful, spreading branches if left untrimmed. When sheared, a perfect column may be had. In color, a light blue and a distinct contrast to any other of this group.

J. virginiana keteleeri. Keteleer's Cedar. Makes a compact pyramidal tree, well proportioned as to density and height. The foliage has the appearance of being more fleshy than most Junipers. Its slate-colored berries are large and make an attractive showing against the foliage.

J. virginiana pyramidaliformis. Hill's Dundee Juniper. A rather new, pyramidal, compact-growing Evergreen of much merit. Bluish green foliage in spring, changing to plumlike color in early autumn. Stands shearing well. Excellent for formal planting.

J. virginiana schottii. Schott Red Cedar. A rather formal light green variety which stands shearing well.

Prices of above 5 Junipers:

	Each
3 to 3 1/2 ft.	\$3.00
3 1/2 to 4 ft.	3.50
4 to 4 1/2 ft.	4.00
4 1/2 to 5 ft.	4.50
5 to 5 1/2 ft.	5.00
5 1/2 to 6 ft.	5.50
6 to 7 ft.	6.00

Rear of Residence, Mrs. Christian deWaal, Barrow Road

Unusual and attractive open porch overlooking garden just hidden by hedge. Note sweep of lawn, framed by two specimen Yews and hedge of same in distance. All plants shown moved by us in full growth. Henry Fletcher Kenney, Landscape Architect.

Experts Tell Us We Have the Finest Evergreens to be Found In Any Nursery. Seeing is Believing.

Picea - Spruce

Picea canadensis. White Spruce. A very hardy Evergreen with light green foliage, and similar in many respects to the Norway Spruce, except that it is decidedly slower growing in our locality and can safely be used where a medium-sized or small tree is wanted.

1 1/2 to 2 ft.	Each \$1.50
2 to 2 1/2 ft.	2.00

P. excelsa. Norway Spruce. The most popular of the Spruce family as it is easy to transplant, hardy, and grows rapidly. Pyramidal in shape, and when used as a specimen is very fine. For screen, windbreak, and hedges, they are equally appropriate. The needles are dark green.

2 to 3 ft.	Each \$2.00
3 to 4 ft.	3.00
4 to 5 ft.	4.00
5 to 6 ft.	5.00
6 to 7 ft.	6.00
7 to 8 ft.	8.00

Large Specimen Priced On Request.

P. pungens kosteriana. Koster's Blue Spruce. The true grafted variety which is known the world over for its uniform blue color. Don't be misled into buying just "Blue Spruce." Many are almost as green as Norway Spruce. Insist on Koster's, the aristocrat of the Blues.

2 to 3 ft.	Each \$5.00
3 to 4 ft.	7.50
4 to 5 ft.	10.00

Residence of Mr. and Mrs. Waller B. Hunt, Tates Creek Road

Planting simple, though attractive. Note large, newly planted trees which give it added charm. We move trees 15 to 20 years old.

Large Trees

Immediate effects are obtained by using large trees. We have some trees larger than the regular grades, which are excellent specimens. Write us for prices and information.

Taxus Cuspidata Nana

Koster's Blue Spruce

Pinus - Pine

Pinus excelsa. Himalayan Pine. A beautiful bluish green variety with spreading branches and pendulous foliage. Looks like a much refined White Pine. Makes a wonderful specimen for the lawn. Scarce.

3 to 4 ft.	Each \$4.00
4 to 5 ft.	5.00
5 to 6 ft.	6.00

P. montana mughus. Mugho Pine. An excellent dwarf Pine, globe-shaped and erect branching. It is especially attractive in the spring, when the new growth, which looks like miniature candles, completely covers the bush.

1x1 1/2 ft. wide	Each \$2.00
1 1/2 x 2 ft. wide	3.00
2x2 ft. wide	4.00
2 1/2 x 3 ft. wide	5.00

P. resinosa. Red or Norway Pine. A valuable large, quick-growing tree, useful as a specimen or screening. Needles 4 to 6 inches, glossy green. Hardy and holds a good color throughout the winter.

P. strobus. White Pine. A familiar, tall majestic native Evergreen. Grows rapidly as Evergreens go, and with its long, flexible, light green, pendulous needles proves one of our best trees. Can be used as a windbreak or specimen.

P. sylvestris. Scotch Pine. One of the best Pines offered. Very quick to establish itself, grows rapidly, and has ability to grow luxuriantly on high and dry ground. Its needles are shorter than either White or Red Pine, its habit more compact, the foliage dark green. Where quick effect is wanted, this variety is one of the best.

Price of the above 3 Pinus:		Each
3 to 4 ft.		\$3.00
4 to 5 ft.		4.00
5 to 6 ft.		5.00
6 to 7 ft.		6.00

Ask For Prices On Specimen White Pine.

Pseudotsuga - Fir

Pseudotsuga douglasi. Douglas Fir. A Colorado tree. Soft green foliage, resembling the hemlock or spruce, but of a blue cast. Makes a compact tree, and can be used as a specimen or in group plantings.

2 1/2 to 3 ft.	Each \$2.50
3 to 4 ft.	3.00
4 to 5 ft.	4.00

Residence of Dr. and Mrs. Charles Garr, Deepwood

A simple, attractive planting. A hedge-enclosed terrace in the rear with flagstones, turf and flowers as an added feature.

🌿 Hothouse Cut Flowers Fade and Die, but Evergreens Bring Beauty to Your Home the Year 'Round. 🌿

The Disease-Proof Evergreen

Taxus - YEWS

NO family of Evergreens has gained such popularity in recent years as the Yew. Their dark rich color, hardiness, variety of form, ease to transplant, adaptability, freedom from disease or insects has merited this position. They all do well in the shade. We have one of the largest stocks in the South, and are using it in quantities for foundation planting and to replace boxwood, which so often freezes.

Taxus cuspidata. Spreading Japanese Yew. Low, rather spreading type which is usually broader than high. Can be pruned into compact form to look like boxwood or made into a hedge if desired. Withstands heat and cold and perfectly hardy in our climate. Can be grown in sun or shade. One of the finest spreading Evergreens.

1 1/2 to 2 ft.	Each	\$ 3.00
2 to 2 1/2 ft.	Each	4.00
2 1/2 to 3 ft.	Each	5.00
3 to 3 1/2 ft.	Each	6.50
3 1/2 to 4 ft.	Each	8.00

GLOBE TAXUS CUSPIDATA			
(The best substitute for Boxwood.)			
	Each		Each

2 to 2 1/2 ft.	Each	5.00
2 1/2 to 3 ft.	Each	6.00

LET HILLENMEYER
Help You Plan

Thuja ~ ARBOR-VITAE

Thuja occidentalis. American Arbor-Vitae. One of the most popular Evergreens because it grows well under adverse conditions, and as a specimen or hedge plant it is very attractive. It is inclined to be conical in growth, and while it is not green during the winter as most of the other varieties, it is one of the most popular because of its many good qualities.

2 to 3 ft.	Each	\$1.50
3 to 4 ft.	Each	2.00
4 to 5 ft.	Each	3.00

T. occidentalis globosa. Globe Arbor-Vitae. Usually develops into a perfect, globe-shaped plant, the spreading equaling the height. The foliage is light green and attractive. These are largely used for front-line planting, as specimens in urns or vases, and in formal work where symmetry is desired.

1x1 1/2 ft.	Each	\$1.50
1 1/2x2 ft.	Each	2.00

T. occidentalis lutea. George Peabody Arbor-Vitae. Similar to the American Arbor-Vitae, except that the foliage is golden when exposed to the direct rays of the sun. It is by far the best of the American Golden types.

3 to 4 ft.	Each	\$3.00
4 to 5 ft.	Each	4.00
5 to 6 ft.	Each	5.00

T. occidentalis pyramidalis. Pyramidal Arbor-Vitae. Strikingly attractive, spreading very little at its base, and retaining its shape without shearing. The color is deep, rich green. Like all Arbor-Vitae is easy to transplant. For corners, in front of pillars, center or background of group plantings, no dwarf Evergreen is quite so popular.

2 to 3 ft.	Each	\$1.50
3 to 4 ft.	Each	2.00
4 to 5 ft.	Each	3.00
5 to 6 ft.	Each	4.00
6 to 7 ft.	Each	5.00

T. orientalis aurea conspicua. Goldspire Arbor-Vitae. One of the most conspicuous of the golden pyramidal Arbor-Vitae. Holds color throughout the winter.

3 to 4 ft.	Each	\$3.00
4 to 5 ft.	Each	4.00
5 to 6 ft.	Each	5.00

T. orientalis elegantissima. Yellow Column Arbor-Vitae. Of rather pyramidal form though broader at base than Aurea conspicua. Golden color in summer, turning a pleasing bronze at the approach of cold weather.

15 to 18 in.	Each	\$2.00
18 to 24 in.	Each	2.50

T. orientalis aurea nano. Berckmann's Golden Arbor-Vitae. A beautiful, dwarf, compact variety of golden color. For urns, small gardens, cemetery lots or brightening up foundation plantings.

2 to 2 1/2 ft.	Each	3.00
3 to 3 1/2 ft.	Each	5.00

Globe Arbor-Vitae

Pyramidal Arbor-Vitae

The All-Purpose Evergreen

Tsuga - HEMLOCK

Hedge • Screen • Specimen • Foundation

*Tsuga
Canadensis—
Canada
Hemlock*

THIS grand tree has more uses than any evergreen we sell. The fact that it grows rather rapidly as evergreens go, can be pruned to almost any shape desired, will tolerate both sun and shade, good color winter and summer and graceful, has made it a standout.

While Hemlocks prefer a good, rich, moist soil, they will grow almost anywhere. Keep well watered immediately after transplanting.

We have one of the largest and finest stocks in the entire country. We have a saying, "When in doubt plant a Hemlock."

FOUNDATION PLANTING. Few trees are better adapted to foundation work than the Hemlock. While it will sometimes grow rather large if not restrained by pruning, it still can be kept within bounds very easily. They can be shaped into columnar, pyramidal or globular forms. Their graceful soft foliage is usually of good color and the trees will stand city conditions very well. While they prefer good soil they will grow almost anywhere both in shade or sun if given a reasonable amount of moisture.

SPECIMEN. As a specimen many consider Hemlock the handsomest evergreen in Eastern North America. Certainly there are few which preserve for a long time the grace, dignity, and beauty of the entire tree from base to tip as the Hemlock. Small or large, they are beautiful. If permitted to grow with little or no pruning the pendulous twigs drooping from the rather horizontal branches give it a form which is dignified yet graceful. Yes, as a specimen we recommend a Hemlock.

The Hemlock Used as a Screen or Windbreak

EVERGREEN QUALITY

Every Evergreen has been transplanted to increase the root-system, and sheared to make it compact. Height does not indicate compactness and shapeliness, nor does price indicate VALUE—seeing is believing!

Tsuga - Hemlock

	Each
2 to 3 ft. . .	\$ 2.00
3 to 4 ft. . .	3.00
4 to 5 ft. . .	4.00
5 to 6 ft. . .	5.00
6 to 7 ft. . .	6.00
7 to 8 ft. . .	7.50
8 to 9 ft. . .	9.00
9 to 10 ft. . .	11.00
10 to 11 ft. . .	13.00
11 to 12 ft. . .	15.00

HEDGE. While a great many plants have been used from time to time in making hedges, there is none for all-round purposes which is superior to the Hemlock. Its rich green color in winter or summer, softness of texture, compactness, hardiness, ability to thrive in shade or open exposure, freedom from disease are some of its outstanding qualities. In the past Hemlocks have been rather expensive to use for this purpose, but we have grown them by the thousands, and now have what we believe is as fine a stock as can be found in the United States. Our trees have been several times transplanted, and every one is a specimen. Can furnish in heights of from 2 to 10 feet. Write for prices, giving distance to be planted, and we shall be pleased to quote special prices.

SCREEN. While Hemlocks are usually not so rapid in growth as the Pines and Spruce, they will soon develop into large compact trees. If given good soil and ample moisture, a screen of Hemlock will soon surprise and delight the most fastidious. There is nothing more beautiful or satisfactory than a planting of Hemlock, be it a single row, large masses, a small cluster or even a single tree.

☞ Planting Adds Beauty and Charm ☞
—and There Is No Substitute.

Broad-Leaf Evergreens

Not many home-owners know what this title means! Think of the hollies and the laurels as examples. We should sorely miss the glossy green foliage of the Broad-leaved Evergreens in early spring, the deeper colors of summer, and the cheerful contrast they give to dull winter scenes. They may be used around the house foundations, planted with tall evergreens or in the shrub border. You will be delighted with their beauty all the year—and you will like the plants we supply.

B&B means the roots are in a ball of earth wrapped in burlap—the safest and best way of moving all Evergreens.

Abelia - Bush Arbutus

Abelia grandiflora. Few shrubs are of greater value than the Abelias for planting at house foundations, for specimens about the yard, or grouped in corners or curves of walks and drives. The dainty blush-white flowers come in late May or June and continue until frost. While not "evergreen" the rich green foliage has a special charm, as it remains most of the year. Each

18 to 24 in.	\$1.00
2 to 3 ft.	1.25
3 to 4 ft.	1.50

B&B 25c extra.

Berberis - - Holly Barberry

Berberis ilicifolia. Semi-evergreen foliage that resembles that of the Holly, takes on a reddish cast in the fall, and does not drop until the new leaves appear. Very hardy, defying our most severe winters. Each

18 to 24 in. (B&B)	\$1.25
2 to 3 ft. (B&B)	1.50

B. julianae. The best of the evergreen Berberis. Holds its broad, green leaves on golden stems throughout the winter. Each

18 to 24 in. (B&B)	\$2.00
2 to 2½ ft. (B&B)	2.50

B. mentorensis. This new, patented, semi-evergreen, rather upright Barberry is useful as an individual specimen or hedge.

Viburnum Rhytidophyllum

It Isn't What You Pay, But the Results You Get That Count. Our Nursery Stock Will Give the Results You Want.

Buxus - Boxwood

Buxus sempervirens. The old English Bush Box, with its shiny green foliage, is a plant that can be used in many ways. As a hedge it gives character to every place; in an informal group it has no rivals; it may be clipped or trained to pyramid form, globe shapes, or allowed to grow naturally. Box is used freely in window-boxes, urns, and for garden edgings. They should be planted in good soil and fed with sheep or cow manure. Cultivate lightly and do not disturb the roots.

	Each

Special prices in quantity for hedge purposes.

Cotoneaster

Cotoneaster horizontalis. Rock horizontalis. A low-spreading plant with small leaves, pinkish white flowers which are followed by red berries in the fall. Good for low planting, rockeries or similar locations. One of the best. Each

1½ to 2 ft. (heavy field plants) ..	\$2.00
2 to 2½ ft. (heavy field plants) ..	2.50

Euonymus - Evergreen Wahoo

Euonymus patens. A valuable introduction from China. Leaves medium size, oblong, rich green, which persist throughout the winter. Small white flowers followed by coral berries similar to our native Bittersweet. A rather spreading or deciduous shrub which will grow in either sun or shade. One of our most useful broadleaf evergreens. Each

1½ to 2 ft. (B&B)	\$1.00
2 to 2½ ft. (B&B)	1.25
2½ to 3 ft.	1.50
3 to 3½ ft.	2.00

Ilex - Holly

Ilex crenata. Japanese Holly. (F.) An intricately branched evergreen shrub with small, glossy leaves resembling a Boxwood. Its blue-black berries are unlike most Hollies. One of the best evergreen shrubs for foundation planting or compact hedges. Each

1½ to 2 ft.	\$2.00
2 to 2½ ft.	2.50

I. crenata rotundifolia. Round-Leaf Japanese Holly. Has longer, glossier leaves than crenata. A dwarf, spreading hardy form, excellent for foundation planting. Each

1½ to 2 ft.	\$2.50
------------------	--------

I. opaca. American Holly. Our native Holly with large glossy leaves and red berries. Can be used as specimen, base plantings or hedges. Sheared, they may give the effect of large Boxwood. Nursery grown trees are not difficult to transplant if directions are followed.

5 to 6 ft., \$5.00. 6 to 7 ft., \$6.00. 7 to 8 ft., \$7.00. 8 to 9 ft., \$8.00. 9 to 10 ft., \$9.00.
--

All Holly Trees Do Not Produce Berries. Guaranteed Fruiting Plants, 40% Additional.

Ilex Opaca—Holly

Laurocerasus - Cherry Laurel

Laurocerasus caroliniana. A fine evergreen shrub growing 7 to 9 feet high, with glossy leaves of deepest green. Ornamental, useful and desirable. Each

2 to 3 ft. (B&B)	\$2.50
3 to 4 ft. (B&B)	3.00
4 to 5 ft. (B&B)	4.00

Mahonia

(Oregon Holly-Grape)

Mahonia aquifolium. The thick, glossy leaves resemble Holly, but are much larger and far more attractive. Makes a compact bush, and when cut to the ground every few years will become an indescribable mass of green and bronze foliage. Yellow blossoms in June followed by blue berries. Thrives in shade especially. Each

1½ to 2 ft. (B&B)	\$2.00
2 to 2½ ft. (B&B)	2.50

Nandina

Nandina domestica. A semi-evergreen with numerous, upright, reedlike stems. Each cane has a tuft of spreading foliage, clear green except the very young growth, which is tinted pink to copper. In August, white panicles of flowers appear, followed by masses of red berries in trusses. In autumn, strong, coppery tints cover the foliage, making it a most pleasing combination. While not entirely evergreen, it is nearly so. Each

2 to 2½ ft. (B&B)	\$1.50
2½ to 3 ft. (B&B)	2.00

Osmanthus

Osmanthus americanus. 6 to 8 feet. A fast growing evergreen shrub with long narrow leaves and fragrant white flowers. Rather open growth. Not generally listed but one of the hardiest and best. Each

2 to 3 ft. (B&B)	\$1.50
3 to 4 ft. (B&B)	2.00

Pyracantha

Pyracantha coccinea pauciflora. A low, compact, rather round-shaped plant with small silvery leaves and twiggy growth. Excellent for individual specimen or mass planting.

1½ to 2 ft., bushy, (B&B)	\$1.50
2 to 2½ ft., bushy, (B&B)	2.00

Viburnum

Viburnum rhytidophyllum. Leather-leaf Viburnum. Large, leathery leaves resembling the rhododendron, except it will grow in any kind of soil. Yellowish white flowers followed by red berries. A valuable plant. Each

1½ to 2 ft.	\$2.00
2 to 3 ft.	2.50

V. burkwoodi. This new fragrant "Evergreen Carlesii" is in demand everywhere. If you want something new and outstanding order burkwoodi. Each

2 to 3 ft.	\$3.00
3 to 4 ft.	4.00

Deciduous Trees

For Shade and Beauty

WHEN hot summer sun beats down, you long for the welcome shade of a Maple, an Oak, or a broad-spreading Elm. But to have and enjoy such shade and shelter, you must plan ahead. The trees must be planted in fall or spring when the weather is cool. Then the roots take hold, the tree flourishes, and in a surprisingly few seasons the outspreading branches give the protection you desire.

We can supply—at very low prices—large trees that will give immediate effect, as well as smaller specimens from 6 to 15 feet high, which need a little more time to develop after moving to your place. Our trees are well grown, root pruned, and transplanted several times; they are truly Hillenmeyer standard.

Moving a Maple in Full Leaf July 9th

We are equipped to transplant large trees, 20 to 40 feet, and while best done in the dormant period, we often move in full leaf. If interested in saving 10 to 20 years, and getting immediate effect, consult us.

*"Poems are made by fools like me
But only God can make a tree."*
JOYCE KILMER.

Acer - Maple

Acer dasycarpum. Silver or Water Maple. Because of its quick growth and good foliage, this tree is in great demand. The leaves appear early in spring, are light green on the upper side, silvery beneath, and remain until late fall. Small flowers open before the leaves appear. For planting as temporary trees—that is, alternating between the hard-wooded and slower growers, such as oaks, elms, sugar maples, gums, etc.—the Silver Maple is highly recommended.

	Each	Five
7 to 9 ft., 1 1/4 in. cal.	\$1.50	\$ 6.75
8 to 10 ft., 1 1/2 in. cal.	2.00	9.00
10 to 12 ft., 1 3/4 in. cal.	2.50	11.25
12 to 14 ft., 2 in. cal.	3.00	13.50
12 to 15 ft., 2 1/2 in. cal.	4.00	18.00

A. platanoides. Norway Maple. Resembles the Sugar Maple in character but with darker and larger foliage, round and spreading in habit of growth. It is really the European Hard Maple and retains this character here. For lawn specimens or shade to plant on streets, in parks, cemeteries, avenues, or arching over roadways, this tree is highly recommended. Sometimes the trunks are slightly crooked when young, but they overcome this unsightliness in a few years when planted in the open.

A. platanoides schwedleri. Schwedler's Maple. Similar to the Norway Maple, except in early spring the foliage is a bright purple, changing to bronze and then to dull green. In the fall it turns bronze before defoliating.

A. rubrum. Red Maple. A native tree which is not appreciated and one of the most attractive as a lawn specimen. The young shoots are bright red in winter. Flowers red, appearing before the leaves, which in fall vie with the oaks, sassafras, gum, sumac, or sugar maples for magnificence in color.

A. saccharum. Sugar Maple. Known everywhere and extremely popular. The tree grows to great size, erect, conical form, is perfectly hardy, withstands any sub-normal weather conditions, and is adoptable to nearly all types of soil. The tree yields valuable timber, as well as maple sugar. Foliage is deep green, turning in fall to indescribable colors.

Prices—Norway, Schwedler's, Red, and Sugar Maples:

	Each	Five
7 to 9 ft., 1 1/4 in. cal.	\$2.50	\$11.25

12 to 15 ft., 2 1/2 in. cal.	6.00	27.00

"He Who Plants a Tree, Plants for Posterity"

Aesculus

Aesculus carnea. Red-Flowering Horse-Chestnut. A handsome tree with red or scarlet flowers borne in panicles 6 to 8 inches long. Much prized for this highly ornamental value. Trees must be grafted and are rather scarce.

	Each
3 to 4 ft.	\$3.00
4 to 5 ft.	4.00
5 to 6 ft.	5.00
6 to 7 ft.	6.00

A. glabra. Ohio Buckeye. A native round-topped tree of good habit. Cream blossoms borne in clusters 5 to 6 inches long.

	Each
5 to 6 ft.	\$2.00
6 to 7 ft.	3.00
7 to 8 ft.	4.00
8 to 10 ft.	5.00

Amygdalus

Amygdalus. Flowering Peach. A small tree, covered in spring with double showy red blossoms.

	Each
4 to 5 ft.	\$0.75
5 to 6 ft.	1.00

Special prices on specimen trees.

Cladrastis Yellow-Wood

Cladrastis lutea. So called because the wood was formerly used to make a yellow dye. A native tree of spreading habit with foliage generally resembling the ash. It produces great drooping panicles of white pealike blossoms not unlike wisteria. Foliage brilliant yellow in autumn.

	Each
5 to 6 ft.	\$3.00
6 to 7 ft.	4.00
7 to 8 ft.	5.00
8 to 10 ft.	6.00

Fraxinus Ash

Why Wait Years For Shade When We Can Move In Big Trees For You, Guaranteed To Grow.

Carpinus - Hornbeam

Carpinus betula pyramidalis. Pyramidal European Hornbeam. A narrow, stately tree of columnar habit with Beech-like foliage. For a formal specimen or making an alley it is of much value.

	Each
5 to 6 ft.	\$ 5.00
6 to 7 ft.	6.00
7 to 8 ft.	8.00
8 to 10 ft.	10.00

C. caroliniana. Hornbeam or Blue Beech. This attractive, slow growing tree deserves wider planting. In foliage it resembles the native Beech but is much more compact and graceful in habit of growth. The terminal growth has a reddish cast, and foliage colors scarlet to orange-yellow in the fall. Fine where a small, compact specimen is wanted.

	Each
5 to 6 ft.	\$2.50
6 to 7 ft.	3.00
7 to 8 ft.	4.00
8 to 10 ft.	5.00

Castanea - Chinese Chestnut

Castanea mollissima. Chinese blight-resistant Chestnut. Small symmetrical tree, valuable for shade or nuts. With our native variety practically extinct this will take its place. Foliage beautiful in summer changing to yellow in fall. Fruits early and prolifically and is of good quality.

	Each
4 to 5 ft.	\$1.50
5 to 6 ft.	2.00
6 to 7 ft.	2.50
7 to 8 ft.	3.00

Celtis - Hackberry

Celtis mississippiensis. The Hackberry is one of our best trees. It is not rapid in growth, but is comparatively free of disease and reaches a height of 40 to 60 feet. Grows on either dry or wet soil, and the fruits are attractive to birds and children.

	Each
7 to 9 ft., 1 1/4 in. cal.	\$2.00
8 to 10 ft., 1 1/2 in. cal.	2.50
10 to 12 ft., 1 3/4 in. cal.	3.00
12 to 14 ft., 2 in. cal.	4.00
12 to 15 ft., 2 1/2 in. cal.	5.00

Feed Your Trees

Like other plants, trees should be fed for best results. See our Plant Foods listed on inside back cover.

Betula—Cut-Leaf Weeping White Birch

Betula - Birch

Betula alba. European White Birch. Tree of moderately quick growth, erect, with terminal branches slightly drooping. Bark almost white. As a specimen, and especially contrasted with evergreens, it makes a valuable tree for the lawn. Native of moist places, but will do well when planted on dry ground.

	Each	Five
7 to 9 ft., 1 1/4 in. cal.	\$2.50	\$11.25
8 to 10 ft., 1 1/2 in. cal.	3.00	13.50
10 to 12 ft., 1 3/4 in. cal.	4.00	18.00
12 to 14 ft., 2 in. cal.	5.00	22.50
12 to 15 ft., 2 1/2 in. cal.	6.00	27.00

B. alba pendula gracilis. Cut-Leaf Weeping White Birch. Those who know and admire the distinctive characteristics and beauty of the White Birch know it is unusual and do not expect to find it among ordinary listings of popular trees. It forms a pyramidal tree of moderately rapid growth, and as it grows older the younger branches become pendulous, drooping decidedly toward the ground. We have splendid specimens that are offered at very low price.

	Each
6 to 8 ft.	\$3.00
8 to 10 ft.	4.00
10 to 12 ft.	5.00

B. populifolia. American White Birch. A medium sized tree with papery white bark and slender, pendulous branches. More vigorous than the European form and will grow in almost any soil.

	Each
8 to 10 ft., 1 1/2 in. cal.	\$2.50
10 to 12 ft., 1 3/4 in. cal.	3.00
12 to 14 ft., 2 in. cal.	4.00
12 to 15 ft., 2 1/2 in. cal.	5.00

Cercis - Judas Tree

Cercis canadensis. Redbud or Judas Tree. Spring's early harbinger, blooming in April, and literally covered with red or pink blooms before the leaves appear. It is a small, shapely tree, with large, deep green leaves. May be used in heavy mass planting of shrubs, with white-flowering dogwood or against evergreens or white birch, to furnish contrast.

	Each	Five
3 to 4 ft.	\$0.75	\$3.40
4 to 5 ft.	1.00	4.50
6 to 8 ft.	1.50	6.75
7 to 9 ft.	2.00	9.00
8 to 10 ft.	3.00	13.50

Trees Listed Here Are Simply Shipping Sizes. Larger Trees Are Also Available.

Let Hillenmeyer Help You Plan

Cornus—Pink-Flowering Dogwood

Cornus - Dogwood

Cornus florida. White-Flowering Dogwood. A native tree, well known to everyone. It is beautiful all the year, and there is hardly a woody plant quite as useful as our native Dogwood. Its blossoms are conspicuous, coming early in the spring. The foliage is attractive all summer, and in the fall colors beautifully, with red berries that hang on most of the winter. It can be used as a specimen, or in groups as a background for shrub borders. In contrast with bright, flowering trees like redbud, it is especially showy.

Cornus florida rubra. Pink-flowering Dogwood. This is not a new or uncommon tree but one too often overlooked as a means of beautifying home grounds. The common white variety may be better known but this pink-flowering type affords the loveliest display. Our trees are shipped balled and burlapped to insure safe and sure growth. Once started, they need but simple care. Like the white-flowering kind, the leaves of this Dogwood color attractively in the fall.

Crataegus

Crataegus Cordata. Washington Thorn. 15 to 18 ft. One of our most attractive small trees or large shrubs. The white blossoms are followed by bright red berries which persist well into the winter. The small, neat leaves are brilliant in autumn.

Each	Each
4 to 5 ft. ..\$1.50	6 to 7 ft. ..\$2.50
5 to 6 ft. .. 2.00	7 to 8 ft. .. 3.00

Diospyros - Persimmon

Diospyras virginiana. Persimmon. 20 to 25 feet. It has value both for shade and fruit. The foliage is glossy and shining, the coloring yellow in the fall. Its fruit is valued after frost time and is an old favorite. It is a tree too well known to describe.

Each	Each
6 to 7 ft., 1 1/4 in. cal.\$1.50	
7 to 9 ft., 1 1/2 in. cal. 2.00	
9 to 10 ft., 1 3/4 in. cal. 2.50	

Fagus - Beech

Fagus americana. American Beech. One of our loftiest and grandest shade trees. Admired for its smooth gray bark, strong spreading branches and handsome foliage which turns brilliant yellow in autumn. Produces sweet nuts, borne in burrs, which are eagerly sought by children and grown-ups. Each 7 to 9 ft.\$4.00 8 to 10 ft. 5.00

Fraxinus - Ash

Blue, Green, and American Ash. We offer these three varieties which are not unlike in appearance and which are all native. The whole group succeeds in dry, moist, alkaline soils. These should be more generally planted, especially in the paddock and for reforestation purposes.

Each	Each
7 to 9 ft., 1 1/4 in. cal.\$2.00	
8 to 10 ft., 1 1/2 in. cal. 2.50	
10 to 12 ft., 1 3/4 in. cal. 3.00	
12 to 14 ft., 2 in. cal. 4.00	
12 to 15 ft., 2 1/2 in. cal. 5.00	

Ginkgo - Maidenhair Tree

The Ginkgo is one of the oldest living things in the world. It is a hang-over from prehistoric ages and has no relatives in the plant kingdom. A tall, picturesque, hardy tree with horizontal branches and small maiden-hair-fern-like leaves which usually hang in clusters of three or more from the branches. The foliage changes to golden yellow in the fall. A unique tree which is worthy of a place on any lawn.

Each	Each
7 to 8 ft., 1 1/2 in. cal.\$2.50	
8 to 9 ft., 1 1/4 in. cal. 3.00	
9 to 10 ft., 1 3/4 in. cal. 4.00	
10 to 11 ft., 2 in. cal. 5.00	
11 to 12 ft., 2 1/2 in. cal. 6.00	

Gymnocladus - Kentucky Coffee Tree

Gymnocladus dioica. A native of noble proportions, growing rather irregular in shape, with blue-green foliage. Resembles the walnut tree. Fine for heavy clay soils.

Each	Each
7 to 9 ft., 1 1/4 in. cal.\$2.50	
8 to 10 ft., 1 1/2 in. cal. 3.00	
10 to 12 ft., 1 3/4 in. cal. 4.00	
12 to 14 ft., 2 in. cal. 5.00	
12 to 15 ft., 2 1/2 in. cal. 6.00	

HALESIA, Silver Bell. See page 15.

All of our trees are transplanted and root pruned. They will therefore start more readily.

Populus—Lombardy Poplar

Acer—Norway Maple

Malus—Flowering Crab

Avenue of Pin Oaks (*Quercus Palustris*)

Juglans - Walnut

Juglans cinerea. Butternut. This native tree is perhaps the most precious of the nut-bearing trees. It is rapid in growth, quickly making a round-headed tree. If you want nuts quickly, plant Butternuts.

J. nigra. Black Walnut. One of the noblest of our native forest trees and in great demand for planting.

Prices of Walnuts:	Each
5 to 6 ft., 1 1/4 in. cal.	\$1.00
6 to 7 ft., 1 1/2 in. cal.	1.50
7 to 8 ft., 1 3/4 in. cal.	1.75

Koelreuteria - Varnish Tree

Koelreuteria paniculata. Frequently called "Golden Rain Tree" because of the many yellow blossoms. It grows 20 to 30 feet high, and is of globular shape. In its young stages it is not so shapely but develops into an interesting specimen.

	Each
5 to 6 ft.	\$2.00
6 to 8 ft.	2.50
8 to 10 ft.	3.00
10 to 12 ft.	4.00

Larix - Larch

Larix europaea. European Larch. A tall, conical tree with soft light green leaves which resemble the short needles of a pine. Valuable for screen or ornamental purposes. Among the first trees to start growth in the spring. B&B 50c extra.

	Each
6 to 7 ft.	\$3.00
7 to 8 ft.	4.00
8 to 10 ft.	5.00

Liquidambar - Sweet Gum

Liquidambar styraciflua. Another native tree not appreciated. It is not of rapid growth nor especially easy to transplant, but the glossy foliage in summer, the brilliant color in the fall, and the unusual appearance of the young branches with corky bark in the winter are qualities which make it especially valuable.

	Each
7 to 9 ft., 1 1/4 in. cal.	\$2.50
8 to 10 ft., 1 1/2 in. cal.	3.00
10 to 12 ft., 1 3/4 in. cal.	4.00
12 to 14 ft., 2 in. cal.	5.00
12 to 15 ft., 2 1/2 in. cal.	6.00

Liriodendron - Tulip Tree

Liriodendron tulipifera. Tulip Poplar. Belongs to the magnolia family, and is one of the finest native trees, growing to be very large, and bearing tulip-shaped, yellowish blossoms. Its leaves are large and very dark green. Grows quickly when established.

	Each
7 to 9 ft., 1 1/4 in. cal.	\$2.50
8 to 10 ft., 1 1/2 in. cal.	3.00
10 to 12 ft., 1 3/4 in. cal.	4.00
12 to 14 ft., 2 in. cal.	5.00
12 to 15 ft., 2 1/2 in. cal.	6.00

Morus - Mulberry

Morus tatarica. Russian Mulberry. This makes a round-headed tree, quick of growth and with profuse foliage. It is wonderfully productive, and for anyone wishing to attract birds and for chicken runs it cannot be surpassed. Fruit smaller than our native variety.

	Each
8 to 10 ft., 1 1/4 in. cal.	\$1.50
10 to 12 ft., 1 1/2 in. cal.	2.00
12 to 14 ft., 1 3/4 in. cal.	3.00
12 to 15 ft., 2 in. cal.	4.00

Platanus—Sycamore

Magnolia

Magnolia acuminata. Cucumber Tree. A well-known native of our mountains, conical in shape and with large, glaucous leaves, making it attractive. The flowers are fragrant, usually a dull white color, followed by elongated green seed clusters which later turn coral. Very satisfactory.

	Each
6 to 7 ft., 1 1/4 in. cal.	\$2.50
7 to 8 ft., 1 1/2 in. cal.	3.00
8 to 10 ft., 1 3/4 in. cal.	4.00
10 to 12 ft., 2 in. cal.	5.00

M. grandiflora. Southern Magnolia. While this grand southern evergreen attains great height in the South it grows to be only a medium size tree in Kentucky. The large waxy, evergreen leaves resemble the Rubber Plant. Has large white blossoms followed by scarlet seed. Sometimes a little difficult to get established, but well worth the effort.

	Each
4 to 5 ft. (B&B)	\$4.00
5 to 6 ft. (B&B)	5.00
6 to 7 ft. (B&B)	6.00

M. tripetala. Umbrella Magnolia. A wide spreading tree with stout branches and large leaves, sometimes attaining a width of 8 to 9 inches and 15 to 20 inches long. Flowers creamy white, fragrant, and 8 to 10 inches across. A native tree to most of eastern Kentucky.

	Each
6 to 8 ft., 1 1/4 in. cal.	\$2.50
8 to 10 ft., 1 1/2 in. cal.	3.00
10 to 12 ft., 1 3/4 in. cal.	4.00
12 to 14 ft., 2 in. cal.	5.00

Magnolia—Other varieties see page 17.

Malus - Flowering Crab

The Flowering Crabs have few rivals among the gorgeous spring-flowering trees. They are hardy, of easy culture, and will thrive in almost any soil. They are available in many shades and when used as specimen or mass plantings are most effective. Many kinds bear very ornamental fruit. No lawn is complete without one of these gems.

Malus eleyi. Ely Crab. 12 to 15 ft. The best of the purple or red-leaf crabs. Covered in spring with clusters of large pink flowers followed by showy red fruit.

M. floribunda. Japanese Flowering Crab. 12-15 ft. A small, spreading tree with graceful arching branches. Buds rosy red changing to light pink. Fruit reddish and showy. One of the best.

M. hopa. Hopa Crab. 18 to 20 ft. Strang, healthy tree, rose-pink flowers. Fruit red inside and out.

M. ioensis plena. Bechtel's Crab. 12 to 15 ft. Rather slow grower with upright, spreading branches. Its double pink flowers resemble clusters of small roses.

M. niedzwetkyana. Redvein Crab. 15 to 20 ft. A Russian variety with purplish red flowers, twigs, leaves, and fruit. A rather larger spreading tree than most varieties.

M. scheideckeri. Scheidecker Crab. 10 to 15 ft. Compact upright growth with small, bright single rose blossoms borne in profusion.

Price of above Crabs:	Each
3 to 4 ft.	\$1.25
4 to 5 ft.	1.75

Specimens priced on request.

Nyssa - Sour Gum

Nyssa sylvatica. Tupelo Gum. One of the finest trees known for fall coloring. It has long, narrow, glossy leaves, and is rather slow growing. Very attractive at all seasons. Not often offered nursery grown.

	Each
5 to 6 ft.	\$2.00
6 to 7 ft.	3.00

OXYDENDRUM. See page 17.

Spraying and Tree Feeding

We are now equipped to spray and feed large trees, using modern equipment and scientific methods. If your favorite shade tree is being destroyed by insects or is starving you may need expert advice and treatment. Write and consult us when in need of this service.

Like other plants, trees should be fed for best results. See our Plant Foods listed on inside back cover.

We Move Large Trees and Guarantee Them to Grow. Why Wait Years For Shade.

Phellodendron - Cork Tree

Phellodendron amurense. Chinese Cork Tree. A handsome corky bark tree with spreading branches, compound leaves, and round top. Looks much like a Black Walnut but has dark berry-like fruit. Rapid grower, hardy, and unusual. Each \$3.00
 6 to 7 ft. \$3.00
 7 to 8 ft. 4.00

Populus - Poplar

Populus nigra italica. Lombardy Poplar. A tall, slender tree of rapid growth, reaching great height and not to be confused with Carolina Poplar. Specimens often reach 50 feet, with a spread of less than 10 feet, and for this reason when trees are needed for narrow places, between buildings, congested lawns, narrow avenues, Lombardy Poplar may be used to advantage. Because of its great height and quick growth it is recommended for backgrounds of buildings, to add character to plantings or to offset straight or bare lines; for screening unsightly views, fire protection from close buildings, or wind-breaks—and for quick effects we recommend it.

	Each	Five
5 to 6 ft., 1/2 in. cal. ...	\$0.60	\$2.50
6 to 8 ft., 3/4 in. col.75	3.00
7 to 9 ft., 1 in. cal. ...	1.00	4.50
8 to 10 ft., 1 1/4 in. cal. ...	1.25	5.60
10 to 12 ft., 1 1/2 in. cal. ...	1.50	6.25
12 to 15 ft., 2 in. cal. ...	2.00	9.00

Populus bolleana. Bolleona Poplar. Just because the Carolina Poplar is an enormous weed and nothing else, one should not discriminate against all the Poplar family. Bolleona Poplar has glittering green leaves, silvered underneath, and makes an attractive display against the sky when they are set in motion by a gentle breeze. The bark is gray, giving a pleasing winter effect. It is a fast growing, slender, columnar tree, a little wider than Lombardy, which it resembles at a distance and for which it should be used as a substitute.

	Each	Five
5 to 6 ft.	\$1.00	\$4.50
6 to 7 ft.	1.50	6.75

Platanus - Sycamore

Platanus occidentalis. A native Sycamore which is not appreciated. However, if you want a tree of rapid growth, rugged in character, picturesque in winter with its white bark, you should not overlook this grand old tree. Fine for woodland and paddocks. Tolerant of soot and smoke, and therefore, is much used as a street tree in cities.

	Each	Five
7 to 9 ft., 1 1/4 in. col.	\$1.50	\$ 6.75
8 to 10 ft., 1 1/2 in. cal.	2.00	9.00

14 to 15 ft., 2 1/2 in. col.	4.00	18.00

Prunus - Flowering Cherries

Prunus subhirtella pendula. Weeping Japanese Flowering Cherry. As a lawn tree this can hardly be excelled. Its sweeping, pendulous branches are literally studded with single pink bloom early in spring.

P. serrulata pendula rosea. A double weeping-form which is becoming quite popular.
Prices on above Weeping Cherries: Each Grafted 5 to 6 ft. from ground \$3.50

P. serrulata. There are hundreds of varieties of Japanese Flowering Cherries but the varieties offered below from the above species have been tested and found outstanding.

Amanogawa (P. S. erecta). Semi-double, pale pink, tree upright.

Naden (P. S. Sieboldi). Double, pale pink.

Kwanzan (P. S. Sekiyama). Double deep pink.

Shirofugen (P. S. albo rosea). Double white.

P. yedoensis. Yoshino Cherry. Single pale pink. This is the variety which surrounds the tidal basin in Washington and is so much talked about. Hardy, vigorous and free flowering.

Five varieties immediately above: Each 4 to 5 ft. \$2.50 5 to 6 ft. 3.00

PLANT A COLLECTION OF THESE BEAUTIFUL FLOWERING TREES FROM THE ORIENT

1 each of 5 above, 4 to 5 ft. \$10.00 1 each of 5 above, 5 to 6 ft. 12.00 B&B 50c extra per tree.

Prunus - Flowering Plum

Prunus cerasifera blieriana. A small neat tree with rather upright branches on which are borne salmon-pink rosettes in great profusion. Very showy and desirable.

P. cerasifera pissardi. Purple Leaf Plum. A handsome upright tree with small pale pink flowers, wine-red fruit and purple foliage.

P. cerasifera. Thundercloud. A beautiful shapely tree with dark purple foliage about the color of the Purple Beech. Fine for contrast.

Prices of 3 above:

	Each
4 to 5 ft.	\$1.00
5 to 6 ft.	1.50
1 each of above, 4 to 5 ft.	2.50
1 each of above, 5 to 6 ft.	3.25

Quercus - Oak

The Oak, with all its majesty, is the monarch of the woodlands. It is symbolical of strength, permanency and character. It has been interwoven, since time immemorial, with literature, art and craftsmanship. The family has worldwide distribution, containing many species, both evergreen and deciduous. Its timber is emblematical of strength and durability. By some it is considered of slow growth, but when given a congenial soil, develops rather rapidly in comparison with most hard-woods. When planted as specimen or street trees, varieties like Pin Oak, with their autumn coloring of yellow, orange and scarlet, are the source of enjoyment of the public, and elicits the admiration of the public. No lawn is complete without an Oak.

Quercus alba. White Oak. One of the grandest of all the Oaks. Rather difficult to transplant and of slow growth, but "patience brings a perfect reward." Leaves silver to purplish red in autumn.

Q. coccinea. Scarlet Oak. A beautiful symmetrical tree very much resembling the Pin Oak. Not quite as rapid in growth, leaves somewhat smaller and deeply lobed. Colors brilliantly in the fall.

Q. macrocarpa. Burr or Mossy-Cup Oak. A native variety of slow growth, but becomes a stately tree well covered with thick, dark green foliage of heavy texture. For permanency it has no superior. Prefers a moist or deep soil.

Q. nigra. Water Oak. A round-topped tree of good form. Will grow in either moist or dry soil. Foliage green until late fall.

Q. palustris. Pin Oak. The most popular of all the Oaks. Its beautiful glossy, deeply lobed green leaves change to gorgeous shades of purplish red and scarlet in the autumn. It is symmetrical, easy to transplant and of rapid growth. For street, avenue or as a lawn specimen there is nothing superior. Where a desirable hardwood tree is wanted we unhesitatingly recommend a Pin Oak.

Q. phellos. Willow Oak. A graceful tree with conical head. Long narrow willow-like leaves which are whitish beneath, giving a silvery appearance on a windy day. They change to yellow and orange in autumn.

Q. rubra. Red Oak. Not as compact nor does it color as brilliantly as the Pin Oak. Somewhat more difficult to transplant but will grow in almost any soil when once established. One of the fine Oaks.

Prices for all varieties of Oaks:

	Each	Five
7 to 9 ft., 1 1/4 in. cal. ...	\$2.50	\$11.25
8 to 10 ft., 1 1/2 in. cal. ...	3.00	13.50
10 to 12 ft., 1 3/4 in. cal. ...	4.00	18.00

Sophora Japonica

For 99 Years We Have Had a Reputation For Quality Stock and Fair Dealings.

The Famous Japanese Cherries Located at the Tidal Basin in Washington D. C.

Sophora Japonica - Pagoda Tree

A medium size tree with spreading branches forming a symmetrical compact head. Native of China and Japan. Flowers creamy white borne in large loose panicles expanding in midseason. A handsome tree with green-barked twigs. See illustration, page 11.

	Each
6 to 7 ft., 1½ in. cal.	\$3.00
7 to 8 ft., 1¾ in. cal.	4.00
8 to 10 ft., 2 in. cal.	5.00
10 to 12 ft., 2½ in. cal.	6.00

Taxodium - Bald Cypress

Taxodium distichum. The great lumber tree of the far South, but native and perfectly at home here. Will grow in dry or wet soil and blends well in either deciduous or evergreen plantings. The light green foliage is needle-like and the general shape of the tree resembles a spruce. Considered slow growing, but very symmetrical and as durable as an oak, in fact the lumber is called the "wood eternal."

	Each
6 to 8 ft., 1½ in. cal.	\$3.00
7 to 9 ft., 1¾ in. cal.	4.00
8 to 10 ft., 2 in. cal.	5.00
10 to 12 ft., 2½ in. cal.	6.00

Tilia - Linden

Tilia americana. American Linden. Sometimes known as Basswood. This native tree is very attractive and will grow rapidly when planted in low ground. The leaves are distinctly larger than other varieties. Branches pendulous in habit of growth. Makes an excellent shade tree under favorable conditions.

	Each
8 to 10 ft., 1½ in. cal.	\$2.50
10 to 12 ft., 1¾ in. cal.	3.00
12 to 14 ft., 2 in. cal.	4.00
12 to 15 ft., 2½ in. cal.	5.00

T. vulgaris. European Linden. Similar to the American Linden except the leaves are smaller and the tree is more compact, developing into a shapely specimen.

	Each
7 to 9 ft., 1½ in. cal.	\$3.00
9 to 10 ft., 1¾ in. cal.	4.00
10 to 11 ft., 2 in. cal.	5.00
11 to 12 ft., 2½ in. cal.	6.00

Ulmus - Elm

Ulmus americana. American Elm. A vigorous native tree. It is rapid in growth, with long, spreading, and pendent branches forming giant arches over roads and streets; as a lawn tree is quick to make a marked effect. The wood is tough, the leaves are moderate in size, and make a permanent tree for shade. The beetle that defoliates the European Elms usually avoids these.

	Each	Five
8 to 10 ft., 1½ in. cal.	\$2.00	\$ 9.00
10 to 12 ft., 1¾ in. cal.	2.50	11.25
12 to 14 ft., 2 in. cal.	3.00	13.50
12 to 15 ft., 2½ in. cal.	4.00	18.00

U. americana moline. Moline Elm. We graft this type because its singular upright characteristics make it invaluable in narrow spaces. Its clean growth, large, deep green, heavily plaited leaves, added to its sturdiness and solidity, will make it increasingly popular when it becomes known. We have a fine stock and invite your inspection.

	Each	Five
7 to 9 ft., 1¼ in. cal.	\$2.00	\$ 9.00
8 to 10 ft., 1½ in. cal.	2.50	11.25
10 to 12 ft., 1¾ in. cal.	3.00	13.50
12 to 14 ft., 2 in. cal.	4.00	18.00
12 to 15 ft., 2½ in. cal.	5.00	22.50

U. pumila. Chinese Elm. A new, rapid-growing tree that does especially well in difficult situations, like city soot and gases, dry and poor ground, narrow street plots, etc. Leaves smaller than our native Elm, habit more pendent, and of course, much more rapid. Only drawback possible is sleet damage and Elm-beetle injury. Plant for twenty to thirty years' duration. We have the North China strain only and it will make up as quickly as a willow.

	Each	Five
8 to 10 ft., 1½ in. cal.	\$2.00	\$ 9.00
10 to 12 ft., 1¾ in. cal.	2.50	11.25
12 to 14 ft., 2 in. cal.	3.00	13.50
12 to 15 ft., 2½ in. cal.	4.00	18.00

Salix—Weeping Willow

Salix - Willow

Salix babylonica. Babylon Weeping Willow. One of the most graceful of all the Willows. Makes a round-topped tree, and when it attains some size its long, pendent branches are most effective.

S. elegantissima. Thurlow Weeping Willow. Of rather upright growth when young but as it attains height and age its long, drooping silvery branches make it the most effective of all the Willows. Rapid grower in either moist or other good soil. Fine for specimens or screens. Best of the Weeping Willows.

S. niobe. Golden Weeping Willow. The best of the Golden Willows. Slender leaves, green above and silvery below. Twig and bark golden.

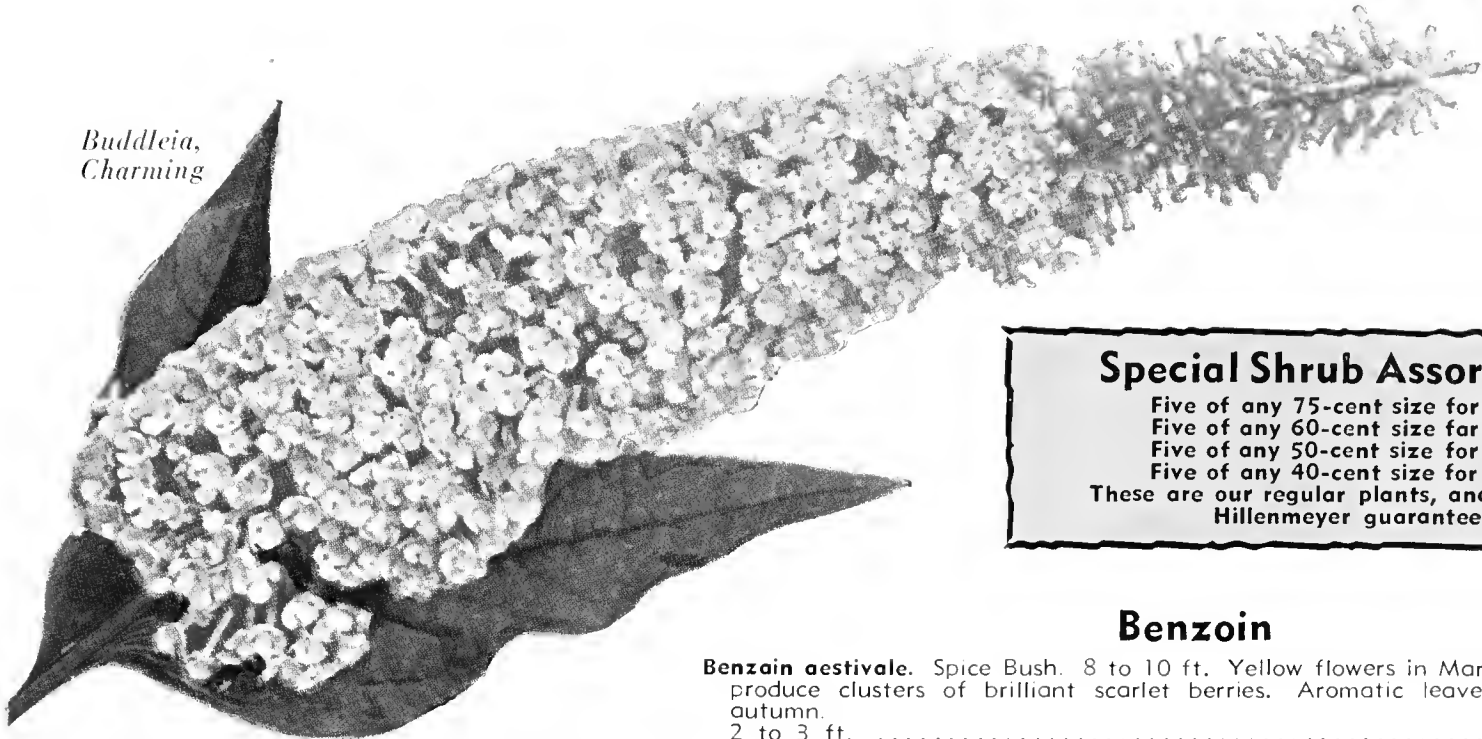

Prices of above 3 varieties:	Each
6 to 8 ft.	\$1.50
7 to 9 ft.	2.00
8 to 10 ft.	2.50

S. caprea. Pussy Willow. See page 18.

Benzoin

Benzoin aestivale. Spice Bush. 8 to 10 ft. Yellow flowers in March and April that produce clusters of brilliant scarlet berries. Aromatic leaves turn scarlet in autumn. Each
 2 to 3 ft. \$0.50
 3 to 4 ft.60

Berberis - Barberry

Berberis thunbergii. Japanese Barberry. (F.) 3 to 4 feet. Yellow flowers in June, followed by brilliant red berries. The most valuable all-purpose shrub now available. Is adaptable and beautiful under all conditions and in nearly all places, shade or sun, moist or dry. Does not carry wheat rust. Each
 1½ ft. \$0.40
 2 ft.50
 2½ ft.60

New Red-Leaf Barberry

Introduced several years ago, this new plant, **Berberis thunbergii atropurpurea**, has become immensely popular. It resembles the Japanese Barberry in growth, but the foliage is brilliant blood-red in spring. The color holds all summer in sun, but in shady places it becomes a beautiful bronzy green. Its winter charm is enhanced by red berries that remain until spring. Few shrubs attract so much attention, or add so much color to a dull border. We consider it one of the best newer plants, and our stock is strong and vigorous. This year the price is so low that the Red-Leaf Barberry should be used freely. Each Five
 1½ to 2 ft. \$0.60 \$2.50
 2½ to 3 ft.75 3.50
 3 to 3½ ft. 1.00 4.50

Flowering Shrubs

There is some place for flowering shrubs around every home—cottage, mansion, or palace. A corner needs a little color, a foundation wall needs to be concealed, a garage should be screened. In all these places flowering shrubs are adaptable, and useful.

From our fields this year we shall take the finest shrubs possible to grow—large, well developed, with good roots, and not by any means like the shrubs sold on "bargain" counters, which in many cases are of unknown origin. In fact, Hillenmeyer shrubs carry several canes, and only the small sizes can be sent by parcel post—others go by Express.

In the descriptions "F" indicates adaptability for foundation planting. The figures following the name indicate height at maturity.

Abelia

Abelia grandiflora. See page 6.

Acanthopanax

Acanthopanax pentaphyllum. Five-leaved Aralia. 6 to 8 feet. Yellow flowers in June. A rugged shrub, thriving under trees and in cities where nothing else will grow. Prickly, upright canes. Each
 2 to 3 ft. \$0.50
 3 to 4 ft.60
 4 to 5 ft.75

Aesculus

Aesculus pavia. Red Buckeye. A shrub from our native Buckeye, with showy red spikes produced early in the spring. Foliage not always the best but well worth its place in any planting because of its striking effect when in bloom. Each
 3 to 4 ft. \$0.75
 4 to 5 ft. 1.20
 B&B 25c extra

Aralia

Aralia spinosa. Hercules Club. 15 to 18 feet. An unusual shrub for tropical effects; white flowers in summer, followed by dark purple berries. Each
 3 to 4 ft. \$0.50
 4 to 5 ft.75
 5 to 6 ft. 1.00

Aronia

Aronia arbutifolia. Red Chokeberry. 5 to 6 feet. White flowers in June, followed by shining red berries and fine fall color. Will endure shade and moist places. Each
 1½ to 2 ft. \$0.45
 2 to 3 ft.50
 3 to 4 ft.60

Aronia—Red Chokeberry

Red-Leaf Barberry

Cydonia Japonica

Buddleia - Butterfly Bush

There should be a place for these continuous summer-blooming shrubs around every home. Their long-pointed spikes of various shades resemble a Lilac though they are in no way related. Easy of culture. Often freeze to the ground unless protected, but will come back year after year.

Buddleia Charming. Soft pink, new and fine.

Davidi. Violet. Best of the older varieties.

Ile de France. Rosy violet-purple. Vigorous and floriferous.

Prices on the above 3:	Each
2 to 3 ft.	\$0.50
3 to 4 ft.60
1 each of 2 to 3 ft.	1.25
1 each of 3 to 4 ft.	1.50

Callicarpa

Callicarpa purpurea. Beauty-Berry. 3 feet. Pink tinted flowers in August, followed by violet-purple berries. May be killed to the ground in severe winters, but will start new growth in spring.

1 1/2 to 2 ft.	Each \$0.40
2 to 3 ft.50

Calycanthus Floridus

Calycanthus

Calycanthus floridus. Sweet Shrub. 4 to 5 feet. An old-fashioned shrub with sweet-scented, chocolate-brown flowers nearly all summer. The red-brown stems carry large, glossy green leaves. Each
2 to 3 ft. \$0.50
3 to 4 ft.60

Cercis - Red Bud

Cercis canadensis. See page 8.

Chionanthus - White Fringe

Chionanthus virginica. 15 feet. A favorite native small tree producing white, tassel-like flowers in May. Worthy of a permanent place in any border. Each
2 to 3 ft. \$0.75
3 to 4 ft. 1.00
4 to 5 ft. 1.25

Clethra

Clethra alnifolia. Sweet Pepper Bush. A sturdy, compact shrub producing creamy white, fragrant flowers in erect panicles during late summer. Each
1 1/2 to 2 ft. \$0.50
2 to 3 ft.60

Cornus - Dogwood

Cornus florida. White Dogwood. See page 9.

C. florida rubra. Pink Dogwood. See page 9.

C. mas (mascula). Cornelian Cherry. 10 to 15 feet. An upright, dense growing shrub. Foliage colors to burnt-orange in fall. Yellow flowers in March before the leaves appear, followed by bright red fruit. Each
3 to 4 ft. \$0.60
4 to 5 ft.75

C. sibirica. Red-Twigged Dogwood. 6 to 8 feet. Greenish white flowers in June. Grown because of its conspicuous red winter twigs. Cutting out old wood increases color brilliance of new growth. Each
2 to 3 ft. \$0.40
3 to 4 ft.50
4 to 5 ft.60

Corylus

Corylus americana. Hazelnut. A vigorous shrub with numerous upright branches, attaining a height of 4 to 8 feet. Leaves heart-shaped, dark green, more or less downy on both surfaces. Nuts large, enclosed in ruffled husks, with sweet and edible kernels. Very prolific. Each
5 to 6 ft. \$1.25
6 to 7 ft. 1.50

Cotoneaster

Cotoneaster acutifolia. Peking Cotoneaster. 6 to 8 feet. Slender, spreading branches with small, shining foliage. Small-clustered pink flowers, followed by shining black berries. Each
2 to 3 ft. \$0.60
3 to 4 ft.75

C. divaricata. Spreading Cotoneaster. 4 to 5 feet. A semi-evergreen variety with good foliage and scarlet fruit. Each
2 to 3 ft. (B&B) \$1.50
3 to 4 ft. (B&B) 1.75

C. francheti. Franchet Cotoneaster. 6 to 7 feet. An upright, graceful type with persistent silvery foliage which changes to orange in fall. The orange-red fruit is quite showy. One of the best. Each
2 to 3 ft. (B&B) \$1.50
3 to 4 ft. (B&B) 1.75

HOW TO PLANT

With every order we will send absolutely free a book which, by word and picture, will show just how to plant a tree or shrub. The instructions are clear, and if followed, your plants should grow and thrive. We send the booklet free with every order.

Spiraea Trichocarpa—Korean Spiraea

Cydonia - Flowering Quince

Cydonia japonica. Japanese Quince. 6 to 8 feet. Early blooming, spreading shrub with large masses of brilliant scarlet blossoms produced just as leaves are opening. Foliage dark glossy green. Each
2 to 3 ft. \$0.40
3 to 4 ft.50

C. japonica pygmaea. Dwarf Japanese Quince. (F.) 3 feet. A dwarf form of Cydonia with flesh-pink flowers which are most attractive. A fine variety where a low type is desired. Each
15 to 18 in. \$0.50
18 to 24 in.60

How to Plant a Tree

SET TREE IN TUB OF WATER WHILE DIGGING HOLE.

SUB SOIL SHOULD BE BROKEN UP IF VERY HARD.

ROOTS SHOULD NOT BE BENT IN PLANTING SO DIG HOLE PLENTY LARGE ENOUGH

SET TREE TRIFLE DEEPER THAN IT GREW IN NURSERY.

SETTLE TREE BY SHAKING UP AND DOWN.

SPREAD ROOTS TO NATURAL POSITION

WHEN HOLE IS ABOUT 2/3 FULL PACK FIRMLY WITH FEET.

FILL IN AMONG ROOTS WITH GOOD LOAMY SOIL. WORK IN BY HAND OR SETTLE WITH WATER.

LEAVE SOIL LOOSE ON TOP

FILL HOLE AND PACK FIRMLY. LIGHT SOIL REQUIRES MORE PACKING THAN HEAVY SOIL.

LEAVE POCKET AROUND HOLE TO CATCH WATER.

IMPORTANT: WE DO NOT ENCOURAGE THE USE OF MANURE. IF WELL DECAYED AND MIXED WITH SOIL IT SHOULD BE USED ONLY ON THE TOP.

Plants Are the Only Things You Can Buy For Your Home Which Will Not Depreciate In Value.

Deutzia

Deutzia gracilis. Slender Deutzia. (F.) 2 to 3 feet. A graceful, dwarf shrub which covers its arching branches with small racemes of white flowers in early spring. Sometimes caught by late freezes, and best used in protected places. Each
15 to 18 in.\$0.40
1 1/2 to 2 ft.50

D. lemoinei. Lemoine Deutzia. 4 to 6 feet. Up-standing shrub that is exceedingly free-blooming in April and May, with stems completely covered with white blossoms. Stems droop as they age. Each
15 to 18 in.\$0.40
1 1/2 to 2 ft.50
2 to 3 ft.60

D. magnifica. Giant Snowflake Deutzia. 6 to 10 feet. A Japanese form producing in June a profusion of good white flowers in racemes. Suggests a double form of Lily-of-the-Valley. Useful for quick effect and screen planting. Each
2 to 3 ft.\$0.40
3 to 4 ft.50
4 to 5 ft.60

D. scabra, Pride of Rochester. (F.) 6 to 8 feet. Covered in June with pinkish white, showy flowers. Hardy, upstanding, distinct in form, and adaptable to all locations and all soils. Each
2 to 3 ft.\$0.40
3 to 4 ft.50
4 to 5 ft.60

Forsythia—Golden Bell

Elaeagnus

Elaeagnus angustifolia. Russian Olive. 15 feet. A curious shrub with dark green bark and silvery foliage. Fragrant, deep golden yellow flowers, followed by ornamental olive fruit. Valuable for contrast with green foliage plants.

Each
3 to 4 ft.\$0.60
4 to 5 ft.75
5 to 6 ft. 1.00

Exochorda

Exochorda grandiflora. Pearl Bush. 8 to 10 feet. One of the most pleasing spring-flowering shrubs, having a mass of white blooms in April. Should be used extensively in mass plantings. Prune severely at planting time for best results.

Each
3 to 4 ft.\$0.50
4 to 5 ft.60

Forsythia - Golden Bell

A charming group of shrubs which are admired for their graceful habits, good foliage, and early yellow blossoms which precede any new growth. We have selected the best of the group.

Forsythia fortunei. Fortune's Golden Bell. 6 to 8 ft. One of the hardiest and best.

F. spectabilis. Showy Border Golden Bell. 5 to 8 feet. Much like fortunei, except not quite as vigorous or hardy, but because of its showy flowers, which are borne in great profusion, is the most popular.

F. suspensa. Drooping Golden Bell. 4 to 6 ft. A weeping form much used to plant over walls or as a low spreading specimen.

Price of all Forsythias: Each
2 to 3 ft.\$0.40
3 to 4 ft.50
4 to 5 ft.60

Halesia

Halesia tetraptera. Silver Bell. 15 to 18 feet. Blooms with the Dogwood. Great mass of snow-white, bell-shaped flowers are most attractive.

Each
3 to 4 ft.\$0.75
4 to 5 ft. 1.00
5 to 6 ft. 1.25

Hibiscus—Rose of Sharon

Hamamelis

Hamamelis virginica. Witch-Hazel. 10 to 12 feet. Ribbon-like, yellow flowers in late autumn. Good for natural planting and shady places.

Each
2 to 3 ft.\$0.50
3 to 4 ft.60

Hibiscus - The Altheas

Hibiscus syriacus. Rose of Sharon. 10 to 12 feet. Blooms from June to frost. Upright in growth and rarely spreads over 3 feet. It does astonishingly well in cities or congested areas where other plants fail.

- Ardens.** Double; mottled pink.
- Boule de Feu.** Double; red.
- Jeanne d'Arc.** Double white.
- Single Pink.** Clear pink.
- Totus Albus.** Single; white.

All Hibiscus: Each
2 to 3 ft.\$0.40
3 to 4 ft.50
4 to 5 ft.60

Euonymus

Euonymus alatus. Cork-Barked or Winged Euonymus. 8 to 10 feet. A distinct shrub carrying shiny green foliage which colors to brilliant rose in fall. Produces small red berries, and is attractive in winter by reason of its curious corky bark. Adaptable to shade or sun, an admirable shrub. Each

2 to 3 ft.\$0.60
3 to 4 ft.75
4 to 5 ft. 1.00

E. alatus compactus. Compact Euonymus. 5 feet. Similar to the preceding, but is dwarf. Each
3 to 4 ft.\$1.00
4 to 4 1/2 ft. 1.50

E. americanus. Brook Euonymus; Strawberry Tree. 7 to 8 feet. Has attractive pink fruit in the fall. Foliage colors well in autumn. While it grows under ordinary conditions its native habitat is moist locations. Each
2 to 3 ft.\$0.50
3 to 4 ft.60

E. atropurpureus. Burning Bush. 8 to 10 ft. A large native shrub with upright branches, small purple flowers in slender nodding clusters, medium leaves which turn pale yellow in autumn. Fruit red, persisting on branches until mid-winter. Each
3 to 4 ft.\$0.50
4 to 5 ft.60

E. europaeus. European Euonymus. 10 to 15 feet. A tall, slender shrub with green bark and deep green foliage that colors in autumn. Prized for the wealth of coral fruit in fall. Each
3 to 4 ft.\$0.75
4 to 5 ft. 1.00
5 to 6 ft. 1.25

E. patens. Evergreen Wahoo. See page 6.

Euonymus Alatus Compactus - Cork-Barked Euonymus

Bargain Prices Have Their Appeal but If You Want the Finest Stock at Lowest Prices, Order From Hillenmeyer's.

Kolkwitzia Amabilis—Beauty Bush

Hydrangea

Grand, free-flowering shrubs with large clusters or panicles of showy white flowers. They are admirably adapted for border or foundation planting, either as specimens or in masses. Like a fertile, moist soil with full or partial exposure.

Hydrangea arborescens grandiflora. (F.) Hills of Snow; Snowball Hydrangea. 3 to 4 feet. A continuous bloomer with flower resembling a Snowball. Much used in foundation planting. Each
 18 to 24 in.\$0.40
 2 to 3 ft.50
 3 to 4 ft.60

H. paniculata grandiflora. Peegee Hydrangea. (F.) 4 to 5 ft. The old standard variety with large blossoms opening in August which turn pinkish under favorable weather conditions. Each
 18 to 24 in.\$0.40
 2 to 3 ft.50
 3 to 4 ft.60

H. quercifolia. Oak-Leaved Hydrangea (F.) 4 to 5 ft. A distinct and handsome variety with short, stiff spreading branches. Leaves deeply lobed, dark green above, silvery and downy beneath, which somewhat resembles an Oak. A very fine useful shrub. Each
 18 to 24 in.\$0.75
 2 to 3 ft. 1.00

For Extra Large Shrubs Write Us!

Kerria Japonica Fl. Pl.

Hypericum

Hypericum moserianum. St. John's-Wort; Gold Flower. (F.) 1 to 2 feet. A unique, low-growing shrub. Rich yellow flowers, borne on slender stems from July to September; are surrounded with roundish, leathery green leaves. During severe winter often kills to the ground but next spring will come back more vigorous than before. Each
 12 to 15 in.\$0.40
 15 to 18 in.50

Ilex

Ilex verticillata. Winterberry. 5 to 6 feet. Has handsome sprays of brilliant red berries which stay on well into the winter. Birds do not eat the fruit. Prefers a moist soil. Each
 2 to 3 ft.\$0.60
 3 to 4 ft.75

Jasminum

Jasminum nudiflorum. Winter Jasmine. 2 to 3 feet. Golden yellow flowers appearing before foliage in March and April. Stems green and leaves small and glossy. Creeping habit. Each
 18 to 24 in.\$0.50
 2 to 3 ft.60

Kerria - Globe Flower

Attractive shrubs, native of Japan, with slender green branches and showy yellow flowers. Will grow in any well-drained soil.

Kerria japonica. Single. Each
K. japonica flore pleno. Double. Each
 Above Kerria:
 1½ to 2 ft.\$0.50
 2 to 3 ft.75

Kolkwitzia - Beauty Bush

Kolkwitzia amabilis. Beauty Bush. 6 to 10 ft. One of the most desirable introductions from Asia. Strong canes develop into graceful, sweeping branches. The flowers are shell-pink to deep pink, with yellow streaks, and produced in great profusion all over the plant. Might be called a much-refined Weigela. Deeply admired. Each
 2 to 3 ft.\$0.75
 3 to 4 ft. 1.00

Ligustrum - Privet

For Hedge Plants, see page 23.

Ligustrum sinense. Chinese Privet. (F.) 6 to 10 ft. The small-leaved, almost evergreen Privet, much used for hedges, and also very desirable for landscape work because of its rapid growth, good foliage, and graceful branching. Is not particular about soil, and for screening and mass planting is unexcelled. We are very partial to its use in the South. Hardy where California Privet will succeed. Each
 2 to 3 ft.\$0.40
 3 to 4 ft.50
 4 to 5 ft.60

L. ibota regelianum. Regel's Privet. (F.) 5 to 7 ft. White. June. Low, spreading, and very twiggy, with dense foliage not so glossy as the California Privet. Because of its graceful appearance, hardiness, and adaptability to any soil and shady places, it is the most widely used Privet for landscape work. Each
 18 to 24 in.\$0.40
 2 to 3 ft.50
 3 to 4 ft.60

Hydrangea P. G.

Lespedeza

Lespedeza formosa. Purple Bush Clover. An attractive, August-blooming, herbaceous shrub, with reddish purple, sweet-scented, pealike flowers, borne on arching branches, and lasting several weeks. Very graceful; makes a good "forward" plant for shrub border. The tops may freeze in a severe winter, but come back each spring. Each Strong 2-yr. plants\$0.60

Lonicera - Honeysuckle

Lonicera fragrantissima. Fragrant Bush Honeysuckle. (F.) 7 to 10 ft. So called because of its very fragrant white blossoms in April. The foliage is deep green and glossy. Grows well in partial shade, poor soil, or in cities where tender plants fail. Almost evergreen. Excellent for screens, specimens, or hedges. One of our best and most useful shrubs. For Hedges, see page 23.

L. maackii podocarpa. Late Honeysuckle. 8 to 10 ft. A large, handsome shrub with pinkish blossoms followed by quantities of bright red berries which are fine for birds. Much prized for screen and mass planting.

L. tatarica. Tatarian Honeysuckle. 7 to 9 ft. Blooms in April, and is one of the few early pink-flowering shrubs. Has bright red berries that stay on all summer.

Magnolia

Magnolia glauca. Sweet Bay. A fine, large American shrub with glossy, laurel-like, almost evergreen foliage. The richly fragrant white flowers come in June and are followed by attractive fruits.

	Each		Each
3 to 4 ft., B&B	\$2.50	5 to 6 ft., B&B
4 to 5 ft., B&B	3.00	8 to 10 ft., B&B
		
			7.50

M. grandiflora. Southern Magnolia. See page 10.

M. soulangeana. Saucer Magnolia. All of the soulangeana type have large Tulip-shaped blossoms which expand early in the spring before the leaves. Very ornamental, and a garden treasure. The true soulangeana is pink on the outside with white inside. The best known and most popular.

M. soulangeana alba superba. Large saucer Magnolia. A pure white variety of outstanding merit.

M. soulangeana lennei. Lennie's Magnolia. Outside rosy or reddish purple. White within. Later than the type.

M. soulangeana nigra. Purple Magnolia. Dark purple on outside with shades of pink on inside. Flowers later and somewhat harder than the type.

All the above:		Each		Each

M. acuminata. See page 10.
M. tripetala. See page 10.

MAHONIA aquifolium. See page 6.

Oxydendrum - Sourwood

Oxydendrum arboreum. 10 to 12 ft. The Lily-of-the-Valley-like flowers are borne in panicles in July and August. Its foliage is particularly brilliant in fall.

	Each		Each
3 to 4 ft.	\$1.00	5 to 6 ft.
4 to 5 ft.	1.25	6 to 7 ft.
		
			2.00

Philadelphus. Virginal

Philadelphus - Mock Orange

Philadelphus grandiflorus. Large flowering Mock Orange. 7 to 10 feet. Its white blossoms in June are larger than most, and very attractive. Where a tall plant is wanted, few are better than this. Succeeds under all soil conditions.

	Each		Each
2 to 3 ft.	\$0.40	4 to 5 ft.
3 to 4 ft.50	5 to 6 ft.
		
			\$0.60
			.75

P. lemoinei. Lemoine's Mock Orange. 4 to 5 feet. Of good, compact, upright habit, leaves smaller than most and blooms sweetly scented. Highly recommended for foundation or other low planting.

	Each		Each
2 to 3 ft.	\$0.50	3 to 4 ft.
		
			\$0.60

Everyone Should Grow This Mock Orange

Philadelphus, Virginal. Virginal Mock Orange. 7 to 9 feet. The finest of all the Mock Oranges. While it produces flowers intermittently throughout the growing season, its great value lies in its magnificent spring display. The pure white, fragrant flowers are amazingly large, often 2 inches across, are semi-double, and borne in such profusion that the branches are weighted down. The plant is an erect and vigorous grower. No one should be without this delightful shrub—the best of the Mock Oranges.

	Each
2 to 3 ft.\$0.50
3 to 4 ft.60
4 to 5 ft.75

Hillenmeyer Shrubs are transplanted and cut back to increase root-systems and bushiness. Don't confuse such shrubs with "straggly", sickly shrubs offered in many places. Size means more than height; quality more than mere price.

SPECIAL SHRUB ASSORTMENTS

- Five of any 75-cent size for \$3.50
- Five of any 60-cent size for \$2.75
- Five of any 50-cent size for \$2.25
- Five of any 40-cent size for \$1.75

These are our regular Hillenmeyer guaranteed plants.

Ligustrum Regelianum

If You Don't See What You Want, Write Us or Ask Us. We Have Many Trees and Plants Not Listed.

Residence of Mr. and Mrs. Jefferson Harris, Chevy Chase

Yews, Hemlocks and Broad-leaf Evergreens with a cluster of White Birch in the foreground, has made this attractive home more attractive. Hillenmeyer's quality plants and service can do the same for you.

Spiraea - Spirea

Spiraea, Anthony Waterer. (F.) 2 feet. A compact, low-growing shrub with dense foliage, usually deep green with occasional variegated leaves of pink and white on young growth. The bright pink flowers are borne in full, flat clusters on erect stems in June and July. If these are cut away when they fade, the shrub will bloom during the summer. Valuable for edging in front of shrubbery and sometimes used as a dwarf hedge.

Each	
1 to 1 1/2 ft.\$0.50
1 1/2 to 2 ft.60

S. arguta. Garland Spirea. 4 to 5 feet. Very free flowering in April. Its small, soft green foliage gives it a billowy appearance and makes it one of the most attractive plants. Very much like **S. thunbergi**, but grows slightly larger.

Each	
2 to 3 ft.\$0.50
3 to 4 ft.60

S. douglasi. 6 to 8 feet. Terminals of each branch crowned with deep pink flower-spikes 6 inches long in July.

Each	
2 to 3 ft.\$0.40
3 to 4 ft.50
4 to 5 ft.60

S. prunifolia. Plum-Leaved Spirea. (F.) 5 to 6 ft. An old-fashioned variety with white, double flowers borne close to the slender, erect branches in April and May before the foliage appears.

Each	
2 to 3 ft.\$0.40
3 to 4 ft.50
4 to 5 ft.60

Spiraea reevesiana flore plena. (F.) 4 to 5 ft. Reeves' Double Spirea. The double white flowers are borne in clusters along the branches in May and the shrub resembles Spirea Van Houttei except the flowers are double and the leaves are longer and narrower. Foliage persistent in the fall.

Each	
2 to 3 ft.\$0.50
3 to 4 ft.60

S. thunbergi. Snow Garland. (F.) 2 1/2 to 3 1/2 ft. A graceful shrub with slender, arching branches and small, narrow, light green leaves which change to shades of orange in fall. White, minute flowers appearing in great profusion in early spring. Fine for low foundation planting.

Each	
15 to 18 in.\$0.40
1 1/2 to 2 ft.50
2 to 3 ft.60

S. trichocarpa. Korean Spirea. (F.) 4 to 6 ft. A rather new Spirea which resembles the well-known S. Van Houttei except that it is coarse in every way. The blooms are borne on recurved branches about 2 or 3 weeks later.

Each	
2 to 3 ft.\$0.50
3 to 4 ft.60
4 to 5 ft.75

S. Van Houttei. Bridal Bower; Bridal Wreath. (F.) 4 to 6 ft. This shrub should need no description as it is planted and known all over America. The rather slender arching branches are literally covered with clusters of small white flowers in early spring. Good foliage and form, but should be planted where it does not have to be cut back too severely. Can be used as specimen, in masses, or for a graceful hedge. Have a wonderful stock of plants. For hedges or quantity lots ask for special prices.

Each	
2 to 3 ft.\$0.35
3 to 4 ft.40
4 to 5 ft.50

Photinia

Photinia villosa. Red-berried Photinia. 10 to 12 feet. An unusual shrub, not often available. It has deep green, glossy foliage and is of dense, branching habit. The foliage colors brilliantly in the fall, and the small flowers produced in June, are followed by attractive red berries that hang on until taken by birds.

Each	
3 to 4 ft.\$0.75
4 to 5 ft. 1.00

Prunus

Prunus glandulosa. Double-flowering Almond. (F.) 3 to 4 feet. Rose-pink. The attractive plants are thickly studded in April with medium-sized, double, pink flowers from base to tip of branch. Grown on plum or peach stock, and must be set deeper than other shrubs.

Each	
1 to 2 ft.\$0.60
2 to 3 ft.75

Robinia - Locust

Robinia hispida. Rose Acacia; Moss Locust. 6 to 8 feet. Foliage resembles that of our native Locust but the mass of long, graceful deep rose-pink flowers in May make it most attractive.

Each	
2 to 3 ft.\$0.40
3 to 4 ft.50
4 to 5 ft.60

Rhus

Rhus aromatica (canadensis.) Fragrant Sumac. 4 to 5 feet. Yellow flowers in clusters, followed in summer with coral-red fruits. Pleasant, aromatic foliage. Fine as an undershrub or in dry, shady rocky places.

Each	
2 to 3 ft.\$0.40
3 to 4 ft.50

R. copallina. Shining Sumoc. 7 to 10 feet. The native variety that colors so wonderfully in the fall. It is not so robust a grower as some of the others, but is most desirable.

Each	
3 to 4 ft.\$0.40
4 to 5 ft.50
5 to 6 ft.60

R. cotinus. Purple Fringe; Smoke Tree. 10 to 12 feet. An old favorite having unusual and attractive foliage. When in bloom the tree is virtually a mist of minute smoky lavender flowers, suggesting a cloud of smoke.

Each	
2 to 3 ft.\$0.50
3 to 4 ft.60

Salix - Willow

Salix caprea. Pussy Willow. 15 to 20 feet. Large shrub that grows on either dry or wet soil, and valued because of their silky catkins that appear before the foliage in the spring. Winter-cut twigs may be forced indoors.

Each	
2 to 3 ft.\$0.40
3 to 4 ft.50
4 to 5 ft.60
5 to 6 ft.75

Photinia Villosa

Rhodotypos

Rhodotypos kerrioides. Jetbead. (F.) 4 to 5 feet. Ornamental shrub with bright green serrated leaves and large white flowers one-half to one inch across in May and June. These are followed by shining black fruits that adhere practically all winter. A desirable shrub.

Each	
2 to 3 ft.\$0.50
3 to 4 ft.60

Spirea Thunbergi

Hillenmeyer's Fresh-Dug Plants Do Better Than Shipped-In Varieties. Order From Close to Home.

Styrax

Styrax japonica. Snowbell. 8 to 12 ft. An attractive Japanese shrub with small fragrant flowers in numerous drooping racemes. Resembles white bells. Upright growth with bright green foliage. Does well in moist soil and shade. Each

3 to 4 ft.	\$0.75
4 to 5 ft.	1.00
5 to 6 ft.	1.25

Symphoricarpos - Coralberry; Snowberry

Symphoricarpos chenaulti. 4 to 6 ft. An improved form of Coralberry, of more upright growth, smaller leaves and coral fruit.

S. racemosus. Snowberry. (F.) 4 to 5 ft. Small pinkish flowers in July, followed by white berries in winter.

S. vulgaris. Coralberry. 4 to 5 ft. A native shrub that in many localities grows in great masses. Bell-shaped white flowers in June, followed by coral berries.

Price on above 3 varieties: Each	
2 to 2½ ft.	\$0.40
2½ to 3 ft.50
3 to 3½ ft.60

French Lilacs

The so-called French Lilacs have been derived by crossing the best of the species. There are many wonderful varieties and after much testing we have selected the following as the best for our section.

- Alphonse Lavallee.** Light purple; double.
- Ludwig Spaeth.** Reddish purple; single.
- Chas. Tenth.** Single, bluish violet-red.
- Mme. Casimer Perier.** Double creamy white.
- Michel Buchner.** Pale lilac; double.
- William Robinson.** Deep pink; double.

All French Lilacs: Each	
2 to 3 ft.	\$1.00
3 to 4 ft.	1.25

Symphoricarpos—Snowberry

Syringa - Lilac

Syringa jasikoea. Hungarian Lilac. 8 to 10 ft. It produces violet flowers later than ordinary Lilacs; the rounded, heavy foliage is not subject to mildew.

S. persica. Persian Lilac. 8 to 10 ft. A rich lilac color; blooms later than the old-fashioned sorts.

S. villasa. Late Lilac. 6 to 8 ft. The latest to bloom. Pale pinkish lilac flowers are very fragrant. Plants bushy and compact.

S. vulgaris. Common Purple Lilac. 6 to 8 ft. The old familiar Purple Lilac of grandmother's garden, and which has lost none of its charm. Entirely hardy; blooms in April.

S. vulgaris alba. Common White Lilac. 6 to 8 ft. This is the old-fashioned White Lilac. Blooms in April.

Price on above 3 varieties: Each	
3 to 4 ft.	\$1.00
4 to 5 ft.	1.25

Above two varieties: Each	
2 to 3 ft.	\$0.50
3 to 4 ft.60
4 to 5 ft.75

French Hybrid Lilacs

Tamarix

Graceful shrubs with few branches, feathery foliage and showy flowers. Will grow in very dry soil.

Tamarix pentandra. French Tamarix. 6 to 8 ft. Beautiful blue-gray foliage, pink flowers in panicles during June and scattered throughout the summer.

T. africana. African Tamarix. 7 to 10 feet. The lavender flowers are borne along the branches in spring before the leaves. Strong grower and excellent for a background.

Prices of both varieties: Each	
2 to 3 ft.	\$0.40
3 to 4 ft.50
4 to 5 ft.60

Vitex

C. macrophylla. Chaste Tree. A beautiful late-blooming shrub with lilac-blue spikes similar to Butterfly Bush. Graceful, showy and should be planted more. Each

2 to 3 ft.	\$0.60
3 to 4 ft.75

Weigela

Hardy free-flowering shrubs of spreading habit with bell- or trumpet-shaped flowers. Thrive in moist soil, and will grow in partial shade.

Weigela candida. 4 to 5 ft. The best white.

W. desbaisi. 6 to 7 ft. Rose-pink, free bloomer.

W. floribunda. 3 to 4 ft. Best red. Superior to Eva Rathke.

D. rasea. (F.) 4 to 5 ft. Delicate pink.

All Weigelas: Each	
2 to 3 ft.	\$0.40
3 to 4 ft.50

Viburnum—Snowball

Viburnum - The Snowballs

Viburnum carlesi. Fragrant Viburnum. 3 to 4 feet. A notable distinct shrub with rounded leathery foliage and waxy pink flowers. Their very delightfully fragrant blossoms unfold with the leaves in spring. It is a real aristocrat, and should be in every garden where quality is appreciated. Each

18 to 24 in.	\$1.25
2 to 3 ft.	1.50

V. americanum. American Cranberry Bush. Is preferred to the more common European variety. It fills the need for a bush with large bunches of scarlet berries.

V. burkwoodi. See page 6.

V. dentatum. Arrow-wood. 10 to 12 ft. Flowers creamy white in flat clusters in May and June. Berries blue-black. Foliage purple and red in fall. Grows in wet soil.

V. lantana. Wayfaring Tree. (F.) 10 to 12 ft. A vigorous shrub with soft, heavy leaves and large clusters of white flowers in May. Red berries turn black as they ripen.

V. apulus. Highbush Cranberry. 8 to 10 ft. Belongs to the Snowball family. Its bright berries attract birds in midsummer, and its color effect in the fall is brilliant. White flowers in May.

V. apulus sterile. Common Snowball. 10 to 12 ft. The old-fashioned variety, well known to all. In May the balls of pure white flowers cover the bush.

V. prunifolium. Black Haw or Stag Bush. A large bushy shrub or small tree with horizontal, twiggy branches and dark green leaves which color brilliantly in the fall. White flowers borne in flat clusters followed by smooth, glaucous bluish black fruit. A valuable variety.

V. rhytidophyllum. See page 6.

V. sieboldi. Siebold Viburnum. 10 to 12 ft. A fine free growing shrub with light green shining foliage and white flowers produced in broad pyramidal clusters. Berries pink changing to black.

V. tomentosum plicatum. Japanese Snowball. (F.) 6 to 8 ft. The pure white flowers are borne among the clean plated healthy foliage, making it one of the showiest and most beautiful. Fine for specimen or mass planting.

V. wrighti. Wright's Viburnum. 8 to 10 ft. Upright shrub with broad leaves, clusters of white flowers followed by persistent beautiful red berries. Very showy.

Prices of all Viburnums except Carlesi: Each	
2 to 3 ft.	\$0.50
3 to 4 ft.60
4 to 5 ft.75

We Ship at the Right Time to Plant. Free Planting Booklet With Every Order.

Roses ~

Victoria Harrington

MANY ROSES which succeed in the North and other parts of the country do not do so well in Kentucky. Almost every Rose listed in our catalog has been tested on our own grounds and proven satisfactory and dependable. We have discarded or do not carry many which will be described favorably in other lists. Why spend your money and time on doubtful kinds when you can buy our "Tried and Tested" Roses?

No flower is so much loved, appreciated and enjoyed as the Rose. It is still the "Queen of Flowers." If properly sprayed and cultivated during summer, protected over winter, you will find a planting of Roses one of the most satisfactory expenditures for your garden.

Twelve New and Select Roses

The following were selected as the best of the newer varieties. All have distinct merit, and we recommend them to those who are looking for something new and beautiful.

No. 1, 2-year plants, 75c each; \$3.50 for 5; \$8.00 per doz. For postage and insurance, add 10 per cent.

Pink

Catherine Kordes. Bright glowing pink growing singly on erect strong stems. Rich bronzy foliage.

Picture. Beautiful with its warm undertone of salmon. Perfect form with pointed petals. Vigorous, continuous bloomer. Fragrant. It really is a picture.

Pink Dawn. Perfect formed buds, opening to a lovely shade of pink, tinged with orange.

The Doctor. Beautiful glowing silvery pink with satiny edges. Extra large bud and blossom which is delightfully fragrant.

A Rose Garden Is a Joy All Summer, Especially With Hillenmeyer Roses. Buy Direct and Get Fresh, Healthy Plants.

Red

Christopher Stone. A thrilling scarlet-crimson from bud until petals fall. Vigorous, upright, free flowering. Looks like this one has come to stay.

Glowing Carmine. Its name is a good description of this new Rose. Strong grower, blooms freely, and is very showy.

Victoria Harrington. Pointed dark, almost black buds opening to non-fading velvety red. Warmed with golden flush in center of flower.

Two-Tone

Faience. Soft peach and cadmium yellow. Tapering bud, yellow at base, shading to shrimp-pink at edges. Exhibition blossoms.

Madame Joseph Perraud. Award of honor "The Most Beautiful Rose in France for 1934." The long slender buds when open shade from pink at the edges to orange at the center. Enraptured visitors were in accord as to its merits.

Yellow

Golden (or Yellow) Sastago. Buttercup-yellow with tints of apricot. Another Spanish Beauty of robust growth. Blossoms are set deep in superb dark foliage.

McGredy's Yellow. This bright buttercup-yellow is admired by all who see it. Good form, fragrant and strong grower.

Phyllis Gold. Beautiful clear yellow with nicely shaped buds, tinged red, opening to large, fragrant, high-pointed flowers of great substance. Strong upright grower with good foliage.

McGredy's Yellow

Quality Stock

Do not confuse quality plants with cheap stock. There is a difference and you will be convinced if you plant HILLENMEYER'S ROSES.

Hillennmeyer Tried and Tested Roses

There are more than 2000 Roses in general cultivation and to list any large percentage of these would be out of the question. We have, therefore, tried and tested all of the best to save you time and expense. The list which follows is the result of our effort and represents the "Cream of the Crop." Plant any of them with confidence.

**Strong, two-year plants:
50c each; \$2.25 for 5**

For postage and insurance, add 10 per cent.

Pink

Betty Uprichard. H.T. Two-color, copper-red buds, opening into semi-double, salmon-pink blooms. A good bloomer and an outstanding variety.

Briarcliff. Long pointed buds of rose-pink taking on lighter shades as they open. Single stems and excellent for cutting. Fragrant.

Edith Nellie Perkins. H.T. One of the best. Long pointed buds of cream, orange, and pink, overspread with gold flush. Very prolific flowering; strong grower. Foliage healthy.

Editor McFarland. Deep pink. We think this the finest pink garden Rose grown today. Its pointed buds on nice long cutting stems last longer and retain their form wonderfully well. A Rose that should be in every garden.

Radiance. H.T. This is a most reliable Rose. It has no serious faults and is the best variety for this section. Brilliant rose-pink buds opening into well-formed blooms with silver tints on reverse of the petals. Blossoms are fragrant and plant makes vigorous growth. Our most outstanding reliable Rose.

Caledonia

"Say It With Roses"

A Birthday Anniversary or Christmas Present of Hillennmeyer Roses Always Pleases

If You Don't Believe There Is a Difference In Rose Plants, Just Try Hillennmeyer's Big 2-Year-Old Plants.

Condesa de Sastago

Red

E. G. Hill. H.T. A great red Rose. Massive blooms of deep crimson and scarlet, velvety on inside. Splendid for cutting. Foliage unusually healthy. Of vigorous habit.

Etoile de Hollande. H.T. It is said that this is the best red Hybrid Tea. Its gigantic flowers of velvety crimson color hold up remarkably well, getting lighter in shade instead of "bluing" with age. Thrives everywhere and produces a fine lot of blooms throughout the season.

Grenoble. This Gold Medal variety is fast becoming popular. Glowing scarlet-crimson with long stems. Vigorous and healthy.

Red Radiance. H.T. Read the description of Radiance and apply the good things said of it to this variety, except the color, which is a deep rose-red. Blooms until frost and is the best all-round red Rose in existence.

Two-Tone

Condesa de Sastago. Vivid colorings of gold, copper, and yellow. This matchless Spanish novelty causes everyone to stop and admire it. Healthy and upright in growth. Admired by all.

Duquesa de Penaranda. Coppery apricot. A Spanish beauty with long-pointed buds which open into luminous shades defying description. A wonderful Rose.

Hinrich Gaede. A brilliant colored Rose with long-pointed buds of rich luminous vermilion shaded with gold. A showy free bloomer; fragrant, with excellent foliage.

President Herbert Hoover. H.T. A most popular Rose. It is maroon, orange, and gold, rioting in a most contrasting fashion. Long, pointed buds; rigid stems. A fine garden Rose, blooming well in the autumn. By far the best of its color, and superior to Talisman as an outdoor Rose.

White

Caledonia. H.T. Purest white, perfectly formed buds on strong stems, opening to large flowers that retain their form until petals fall. No white Rose can surpass this perfect variety.

Kaiserin Auguste Viktoria. H.T. Well-formed, cream-colored buds opening into white flowers. Free blooming; hardy.

McGredy's Ivory. Creamy ivory-white, sometimes with a faint tinge of pink in the center. Large, fragrant and one of the best.

Yellow

Golden Rapture. Long lasting, well-shaped buds and fully double blooms of rich yellow on long, strong stems. A vigorous grower. This has been wonderful in our gardens.

Mrs. E. P. Thom. H.T. Superior yellow garden Rose. The fine long buds are perfectly shaped. Flowers rich lemon-yellow. Very vigorous and a constant bloomer.

Mrs. Pierre S. du Pont. H.T. Winner of more medals than any other outdoor Rose. Long, pointed, rich red-gold buds, opening to well-formed blossoms that hold long. Foliage ornamental, healthy, and disease-resistant.

Sceur Therese. Yellow. Long pointed buds of chrome-yellow with markings of carmine. The open flower is rich Daffodil-yellow. Blooms freely on long cutting stems. One of the finest yellow Roses of recent introduction.

Patented Roses

Many of the finest of the new Roses are being patented. This naturally regulates, to a large extent, the propagation, description, and sale.

We are licensed to distribute these Roses and use the greatest of diligence to see that they reach you in prime condition. However, we cannot be held responsible for their description or other things beyond our control.

We have listed only a few kinds which we know are among the best, but can supply almost any other variety you may wish at their established price. Let us include any you may want with your Rose order.

Adoration. (Pink.) Patent applied for. Brilliant salmon-pink lightening with a splash of orange at base of petals. Long, pointed buds opening with high centers. Flowers accentuated by coppery green foliage. \$1.50 each; 3 for \$3.75.

Countess Vandal. (Pink.) Plant Patent No. 38. Copper, pink and gold with long, pointed buds. Petals curl into a beautiful open blossom. The best patented Rose which has come under our observation. We recommend it with confidence. \$1.00 each; 3 for \$2.50.

Dickson's Red. Patent applied for. A new arrival from the Emerald Isle. Vivid red which holds well. First award by "All-America Rose Selection," for 1940. Considered "tops" in new Roses. \$1.25 each; 3 for \$3.15.

Eclipse. (Yellow.) Plant Patent No. 172. The long stream-lined bud, enhanced by ornamental sepals, is of rich gold without shading. International sensation of 1936. \$1.00 each; 3 for \$2.50.

For a Combination of 3 or More of the Above, Use 1/3 of the 3 Price.

Floribundas

50c each; \$2.25 for 5.

Floribundas may be best recognized and described as large Polyanthas, both as to size of blossoms and height of bush. They are vigorous, free-flowering and can be used for bedding, edging or as small shrubs in landscape designing. Becoming more and more popular.

Improved Lafayette. (Red.) Glowing red blossoms suffused a vivid crimson. Upright and vigorous.

Mrs. R. M. Finch. (Pink.) Handsome semi-double rose-pink flowers more than 2 inches across.

Patented Floribundas

85c each; 3 for \$2.15.

We have selected three of the best new outstanding patented varieties.

Betty Prior. Exquisite single, light pink blossoms resembling a Dogwood.

Donald Prior. Semi-double glistening, glowing scarlet. Free bloomer.

Smiles. Double salmon-pink. Bright, cheery and pleasing.

1 each of the 5 above Floribundas, \$3.00.

For Postage and Insurance on all Roses, add 10 per cent.

Send a Trial Order to Hillenmeyer and Be Convinced. We guarantee You Will Get More For Your Money.

Eternal Youth. (Pink.) Plant Patent No. 332. A Rose of sparkling beauty whose fragrance and cheerfulness are outstanding. Joyous pink, livening to yellow at base of petals. \$1.25 each; 3 for \$3.15.

Hector Deane. (Red.) Patent applied for. Radiant crimson buds with a suggestion of orange at base which diffuses as it opens to a yellow circle at the heart. Delightfully fragrant, vigorous and free bloomer. \$1.50 each; 3 for \$3.75.

Mrs. Chas. Mallerin. (Two tone.) Patent applied for. The long salmon-orange buds stand erect on thick sturdy stems above vigorous leathery ivy-green foliage. Blossoms open an iridescent orange-salmon with veil of scarlet. One of the best. \$1.50 each; 3 for \$3.75.

Signora. (Two tone.) Plant Patent No. 201. Long buds of warm brownish orange opening to a lighter shade. Tall growing with every bloom on a long stem. Tint of orange and salmon. \$1.00 each; 3 for \$2.50.

Paul's Scarlet Climber

Signora

Climbing American Beauty

Climbing Roses

Strong 2-yr. plants, 50c each; \$2.25 for 5, except the patented varieties.

Chaplin's Pink Climber. (Pink.) Rich double pink with a touch of salmon. Holds its color and remains attractive longer than any Rose in our list.

Dr. W. Van Fleet. (Pink.) Large flowers of exquisite flesh-pink, borne on long stems. The outstanding large-flowered pink climber.

Mary Wallace. (Pink.) Clear brilliant pink. Large flowers and fine for cutting.

New Dawn. (Pink.) U. S. Plant Patent No. 1. An everblooming Dr. W. Van Fleet. \$1.50 each.

Climbing American Beauty. (Red.) Extremely beautiful in bud, and flowers of light crimson. Very fragrant.

Paul's Scarlet Climber. (Red.) Vivid scarlet-red that can be "seen a mile." Holds its color.

Silver Moon. (White.) Semi-double flowers. The showy yellow stamens make it doubly attractive.

Gardenia. (Yellow.) Buds rich creamy yellow, opening a pleasing yellow that fades to cream.

Mermaid. (Yellow.) Very large, single blooms of clear, light yellow. Very attractive.

Shrub Roses

2-yr. plants, 50c each; \$2.25 for 5.

Hugonis. "Golden Rose of China." The finest Shrub Rose known. Blooms in May, its arching branches covered to the tips with single, yellow, cup-shaped flowers. Unsurpassed for mass effects and in the shrub border.

Polyantha Roses

These dwarf everblooming Roses are fine for bedding, edging, and are quite hardy. Can also be used with striking effect in landscape plantings.

50c each; \$2.25 for 5.

Cameo. (Shell-pink.) A distinct shade of shell-pink and salmon with a glow of gold.

Catherine Zeimet. (White.) Pure white fragrant blossoms in large clusters.

Miss Edith Cavell. (Red.) Semi-double scarlet-red. Good strong continuous bloomer.

Orange Triumph. (Orange.) Full, sparkling flowers of scarlet-orange borne in great clusters throughout the season.

Hedges The Friendly Way To Fence

A thrifty, green hedge gives more character and beauty to home grounds than any fence ever devised. The first cost of a hedge is less than that of a fence; trimming costs less than painting; if the hedge is permitted to grow tall it shuts out unpleasant views and is decorative all the year. In cities a hedge is an effective boundary marker, a wall of living green that protects the world within from the world without. The different hedge plants here listed are adapted to a variety of uses—and the plants themselves are in every way Hillenmeyer standard.

Japanese Barberry

Japanese Barberry (*Berberis Thunbergi*)

Each year sees an increased use of Japanese Barberry as a hedge plant. It is graceful, ornamental, serviceable, and hardy—four points that place it at the top of the list. The foliage unfolds in early spring, followed by yellow flowers, and later by red berries that remain all winter. In autumn the whole plant assumes a red tone. The drooping branches are thickly set with small spines that will turn cats or dogs. Japanese Barberry is excellent for foundation planting or for massing in corners. It thrives in bright sun and does well in shade.

		10	50	100
12 to 15 in.	\$1.50	\$6.00	\$12.00
15 to 18 in.	2.00	7.50	15.00

Plant 18 to 24 in. apart.

Fragrant Bush Honeysuckle (*Lonicera fragrantissima*)

One of the most satisfactory tall-growing hedge plants. We do not recommend where you want to keep it under 3½-4 feet. It is strong, vigorous, hardy, dense and holds its foliage well into the winter. The small cream bell-like blossoms appear in very early spring and are quite fragrant. Normally grows into a hedge 6 to 12 feet. Requires little pruning and will thrive in almost any soil.

		10	50	100
Plant 12 to 24 inches apart.				
12 to 18 in.	\$1.00	\$ 3.00	\$ 6.00
18 to 24 in.	1.50	5.00	10.00
2 to 3 ft.	2.00	7.50	15.00
3 to 4 ft.	2.50	10.00	20.00

Other Plants for Hedges

Many other shrubs make useful hedges, giving both protection and color. We shall be happy to give special prices on quantities and in hedge size.

- Privet, Regel's.** See page 16.
- Spirea.** See page 18.

Chinese Privet (*Ligustrum Sinense*)

Semi-evergreen; grows quickly. Occasionally it freezes to the ground in a severe winter, but always comes back with renewed vigor.

		10	50	100
18 to 24 in.	\$1.00	\$3.00	\$ 6.00
2 to 3 ft.	1.25	4.00	8.00
3 to 4 ft.	1.50	5.00	10.00

California Privet

(*Ligustrum Ovalifolium*)

Semi-evergreen, with thick, shining foliage. A rapid grower and may be planted without much expense and trouble by anyone needing a quick hedge. When planting, cut away most of the top to get a bushy hedge. The plants may be pruned to any desired form. We have a very fine stock of California Privet.

Ibodium Privet (*Ligustrum Ibalium*)

This comparatively new Privet has proved hardy under the severe tests of the past few years. It has the characteristics of the California Privet and is as hardy as its other parent, the Ibota Privet. This superior Privet is a welcomed addition since it can be grown and sold at the price of California Privet.

Prices of California and Ibodium Privet:

		10	50	100	1000
1-1½ ft., branched	\$0.60	\$2.00	\$4.00	\$30.00

Hillenmeyer's HARDY

Brighten Dull Days and Dull Gardens
With These Colorful Flowers

Aquilegia—Columbine

Heuchera Sanguinea—Coralbells

Campanula—Canterbury Bells

ANCHUSA italica. Tall spikes of beautiful blue flowers in June and intermittently during summer. 3-4 ft.

ANCHUSA myosotidiflora. A charming dwarf variety with clusters of blue flowers resembling Forget-me-nots. Effective in either shady or sunny situations, flowering in May and June. 12 inches. 30c each; 4 for \$1.00.

ANEMONE. Japanese Windflower. Large open flowers excellent for massing and cutting, blooming from September to November. Prefers a good deep, rather moist soil and partial shade. 2-3 ft.

A., Queen Charlotte. Semi-double, silvery pink. 30c each; 4 for \$1.00.

A., Whirlwind. An excellent semi-double white. 30c each; 4 for \$1.00.

AQUILEGIA. Columbine. One of the most stately and hardy perennials, growing in semi-shade or full sun. Blooms over a long period and invaluable for cutting. We offer Mrs. Scott Elliott's Hybrids, with wonderful colors and very long-spurred flowers.

ARTEMISIA, Silver King. Striking silver-leaved plant. Very effective in the border and as a filler for bouquets. 3 ft.

ASTER. Hardy Michaelmas Daisy. Many new and dwarf hybrids are being offered and we have selected the best by testing and offer in a wide range of color. Autumn flowering. Hardy. Fine for borders.

A., Climax. Large blue with golden center. 3-4 ft.

A., Frikarti. Outstanding new hybrid. Lavender-blue, blooming from July to frost. Fine for cutting. 2-2½ ft. 50c each.

A., Ronald. Showy. Bright lilac-pink. 12 inches.

BAPTISIA. False Indigo. Dark blue pealike flowers in May and June. Hardy. 2-3 ft.

CAMPANULA. Canterbury Bells. Ever-popular biennial doing best in rich well-drained soil. Protect in fall or plant in spring. Lovely mixed shades. 2-3 ft.

CERASTIUM tomentosum. Snow-in-Summer. A low, spreading plant with silvery foliage and white flowers in May. Fine for rockeries or border.

CHRYSANTHEMUMS. Hardy. Few fall flowers give as much satisfaction as the old-fashioned hardy Chrysanthemum. We offer the ones which have proven best with us. September and October. Pink, Red, White, and Yellow.

CHRYSANTHEMUMS, Cushion. A group of low-spreading 'Mums blooming from September to frost. 10-12 inches. Bronze, Pink, and Yellow. 30c each; 4 for \$1.00.

CHRYSANTHEMUMS, Korean. Because these have frozen out so completely with us when planted in the fall we will only have to offer in the spring. See our Spring Supplementary Catalog for varieties.

COREOPSIS. Yellow, hardy, daisy-like perennial, valuable for border or cutting. June-August. 2-3 ft.

DELPHINIUM. Larkspur. One of our finest and most popular garden flowers with their long terminal spikes of various shades surmounting the deeply lobed leaves. Plant in well-drained soil and top-dress with lime or old plaster.

D., Belladonna. Light blue. The most popular of its shade. 2-3 ft.

D. bellamosum. Improved dark blue. 2-3 ft.

D., English Hybrids. Stately spikes with a wide range of fascinating colors. 3-4 ft.

Prices of All Perennials

Except as noted.

Each 20c 6 for \$1.00

100 for \$15.00

For Post and Insurance, add 10%.

DICENTRA, Bleeding Heart.

D. eximia. A dwarf plant with fernlike foliage. Blooms over a long period. Shade or sun. 30c each; 4 for \$1.00.

D. spectabilis. An old-fashioned favorite with its heart-shaped, rose-colored flowers in drooping racemes. Prefers semi-shade. 30c each; 4 for \$1.00.

DICTAMNUS. Gas Plant.

D. fraxinella rubra. A very showy border perennial, forming a bush about 2½ feet in height, having fragrant foliage and spikes of rosy pink flowers with deeper veins during June and July. Requires a sunny location. Do not transplant often as it improves with age. 30c each; 4 for \$1.00.

D. alba. White form of the above. 30c each; 4 for \$1.00.

DIGITALIS. Foxglove. Popular biennial with terminal clusters of bell-like flowers in the best mixed shades. Protect over winter. 3-4 ft.

DORONICUM. Leopard's Bane. Large, bright yellow Marguerite-like flowers, 2½-3 inches, in May. Invaluable for the border and as a cut flower. 2 ft. 30c each; 4 for \$1.00.

EULALIA, Hardy Grasses.

E. japonica. A strong grower with light green leaves. 5-6 ft.

E. gracillima. The most graceful and most popular. 3-4 ft.

E. variegata. Long narrow leaves with white stripe. Medium grower. 3-4 ft.

GAILLARDIA. Blanket Flower. Does well in any soil, good for cutting, blooms all summer.

G., Burgundy. Deep red tinted yellow.

G., Dazzler. Large golden yellow and maroon.

G. Hybrids. Coppery scarlet margined yellow.

GYPSOPHILA. Baby's Breath. Noted for their small airy sprays of starry white or pink flowers. Excellent for borders or cutting.

G., Bristol Fairy. Double white. 30c each; 4 for \$1.00.

G. paniculata. Single white. 20c each; 6 for \$1.00.

G., Rosy Veil. Best double pink. 30c each; 4 for \$1.00.

HELENIUM, Riverton Gem. Sneezewort. Terra cotta and gold flowers resembling small Sunflowers blooming in clusters August to October. 3-4 ft.

HELIOPSIS pitcheriana. Orange Sunflower. Deep golden yellow. Useful for border and cutting. July to August. 3 ft.

HEMEROCALLIS. Day Lily. Beautiful hardy Lilies invaluable for cutting and borders.

H., Hyperion. New. Soft yellow with large, fragrant, waxy blossoms. One of the best. July and August. 50c each.

H. flava. Lemon Lily. Clear yellow, fragrant. 2½ ft. June.

H. kwanso. Double. Rich golden bronze. Aug.

H. thunbergi. Pale yellow blossoms in July.

HEUCHERA. Coralbells. Neat graceful plants producing bell-like flowers on slender stems.

H. brizoides. Pale pink. 12-15 inches. May.

H., Rosamundi. Coral-pink. 12-15 inches. June to September.

H. sanguinea. Crimson. 15-18 inches. June to September.

HIBISCUS. Mallow Marvels. In July and August produce flowers 6 to 8 inches across. We can furnish in White, Pink, Rose and Red. Order by color.

PLANTS ESPECIALLY SUITED FOR THE ROCK GARDEN

Anchusa (Myosotidiflora)	Myosotis
Aquilegia	Phlox subulata
Cerastium	Pinks

Iberis	Sedum
Mertensia	Sempervivum
	Veronica incana

PERENNIALS

HOLLYHOCKS, Double. "Powder puff-like" flowers borne along stems in June and July. Mixed colors.

IBERIS sempervirens. Hardy Candytuft. A dwarf plant with evergreen foliage and white blossoms in early spring. Fine for rockery and edging. 8-10 inches.

IRIS GERMANICA

(German Iris)

These well-known "Old-Fashioned Flags" have been improved until we now have thousands of new varieties. Ours are selected as the best and carry a high rating by the American Iris Society.

In planting, do not cover the roots more than 2 inches, nor use manure as a plant food. Bone meal may be used sparingly.

25c each; \$1.25 for 6; \$2.50 per doz.

"S" denotes the Standards or upper petals.
"F" denotes the Falls or lower petals.

- Ambassadeur.** S. purplish bronze. F. maroon.
- B. Y. Morrison.** S. pale lavender-violet. F. velvety purple bordered lavender.
- Caprice.** Light magenta; fragrant.
- Cluny.** S. pale lilac-blue. F. deeper.
- Coronation.** Large rich, deep golden yellow.
- Corrida.** S. sky-blue with deeper shadings.
- Dauntless.** A beautiful red-toned Iris, with darker, velvety F.
- Desert Gold. New.** An exceptionally fine straw-yellow Iris. Large, early and fragrant.
- Dolly Madison.** S. mauve, shading out to yellow at base. F. ageratum-blue and old gold.
- Dream.** A solid, soft, clear pink color.
- Gold Imperial.** A very fine deep yellow.
- Her Majesty.** S. lilac-pink. F. darker.
- La Neige.** Pure, glistening white.
- Lent A. Williamson.** S. lavender-violet. F. pansy-purple.
- Lohengrin.** Uniform lilac-rose.
- Lord of June.** Large S. soft lavender-blue. F. rich violet-blue.
- Mary Geddes. New.** Beautiful and unusual. S. and F. orange-salmon.
- Morning Splendor.** Large flowers of rich red tone and heavy substance.
- Mrs. Valery West.** S. smoky tan. Falls deep velvety purple.
- Opera.** S. reddish lilac. F. velvety violet.
- Pallida Dalmatica.** Clear deep lavender. Large.
- Parc de Neuilly.** Rich plum-purple.
- Princess Beatrice.** Soft lavender.
- Rose Dominion.** S. a beautiful rose-pink bicolor with flaring F. Golden beard. Fine.
- Selene.** Tall, pure luminous white with a yellow beard. Large flowers.
- Souv. de Mme. Gaudichau.** S. dark purple. F. brilliant blackish purple.
- Susan Bliss.** Orchid-pink.
- Sweet Lavender.** Heavily ruffled; pale lavender-blue. S. and flaring Chinese violet F.
- True Charm.** S. white suffused with lavender. F. creamy white edged with lavender.
- Wedgewood.** Flowers a Wedgewood-China-blue.
- White Queen.** The purest white Iris.

Iris Kaempferi

(Japanese Iris)

Later than the German Iris and should be in every garden. Wonderful display of color when in bloom. We have selected outstanding varieties for this section and you will be pleased with them. Prefer a moist soil but will grow anywhere.

Good clumps at 35c each; 3 for \$1.00.

- Gekko-no-nami.** White, base of petals and veins yellow.
- Hizakwa.** Purple, with 6 frilled petals.
- Sakata.** Delicate lavender, veined purple; 3 petals.
- Zedo Kagin.** Rose with purple markings; 3 petals.
- Surprise.** Blue-lavender and mauve markings; 6 petals.
- Yama Yama.** White flushed lavender, with a narrow hair-line edging of bright violet on the standards.

Iris Sibirica

(Siberian Iris)

Follow the German Iris. These smaller blossoms when nestling in the long, narrow, graceful foliage are showy and beautiful. Fine for cut flowers. We offer in two colors—Blue and White. 25c each; 6 for \$1.25.

LINUM perenne. Flax. Attractive, both in foliage and bloom. Flowers a lovely blue. For border or rockery. 1 1/2-2 ft.

MERTENSIA. Virginia Bluebell. Attractive native plant with showy blue flowers opening in early spring. Prefer a shady location but will grow anywhere. 12-18 inches.

MYOSOTIS. Forget-me-not. Rich blue flowers with a yellow eye. Prefer a moist situation. 6 inches.

PAPAVER ORIENTALE. Oriental Poppy. We offer a few of the best after testing many. Plant in fall. 6 named varieties.

30c each; 4 for \$1.00.

Beauty of Livermore. Dark crimson, black blotch.

Mrs. Perry. Salmon-pink.

Apricot Queen. True apricot.

Delicata. Old-rose-pink.

Perry's White. White, dark maroon base.

Wurtembergia. Brilliant rose-red.

Old-Fashioned Red. 20c each; 6 for \$1.00.

PENTSTEMON torreyi. Beard Tongue. Graceful spikes of tubular scarlet flowers. Midsummer. 2-3 ft.

Phlox

One of our most popular perennials with spikes of single showy blossoms produced off and on through the summer. Keep dead blossoms cut and do not water foliage. We have selected some of the best.

PHLOX AUGUSTA. Brilliant cherry-red.

PHLOX COLUMBIA. Loveliest pink.

The above introduced and patented by Wayside Gardens. Our plants come from the originators. 50c each; 3 for \$1.25.

PHLOX, B. Comte. Unusual burgundy-red.

P., Beacon. Brilliant cherry-red.

P., Frau G. von Lassburg. Late. White; immense panicles.

P., Miss Lingard. Earliest white; long, graceful panicles.

P., Mrs. Milly Van Hoboken. Bright pink, suffused mauve.

P., Thor. Deep salmon-pink, aniline-red eye.

P. subulata rosea. Moss or Mountain Phlox. Dwarf, early, pink with mosslike semi-evergreen foliage. Thrives in hot dry locations. Fine for rockeries or ground covering.

PINKS. Old-fashioned Hardy Pinks. Indispensable in both border and rockery. Mixed colors. 12 inches.

PRIMULA. Primrose. Attractive rosettes of foliage from which rise clusters of single velvety flowers. Good in moist semi-shaded places.

P., Moerheim Hybrids. Lovely shades from cream to crimson.

P. Vulgaris. The true yellow Primrose. Fragrant.

All Primulas: 30c each; 4 for \$1.00.

PYRETHRUM. Painted Daisy. Daisy-like flowers, excellent for cutting. Mixed shades May and June. 2 ft.

Hillenmeyer's Sturdy Perennials,
 Fresh Dug, Are Certain to Give You
 Marvelous Results.

PEONIES

The Flowers For Everybody

There are few flowers which have been improved more than the Peony. From the old-fashioned reds and pinks, familiar in our grandmothers' gardens, we now have marvelous varieties with better color, form, and all-around quality.

They are at home and should be in every garden. Plant the crowns about 2 or 3 inches deep, use bone meal, see that they get sufficient water at blooming time, and you will be more than pleased if you use HILLENMEYER'S CHOICE ROOTS.

For Parcel Post and Insurance, add 10 per cent.

PINK PEONIES

- Asa Gray.** Midseason. Soft shell-pink, mottled and veined rose. Vigorous.
- Edulis Superba.** Early. Deep rose. Valued for its fragrance and freedom of bloom.
- Lady Alexandra Duff.** An unusual delicate flesh-pink. One of the most striking of all Peonies, with extra-large, cup-shaped flowers.
- Livingstone.** Late. Clear pink. Very fine.
- Marguerite Gerard.** Midseason. Delicate pink. Large and vigorous.
- Mons. Jules Elie.** Early to midseason. Large, compact; lilac-rose with lighter pink base petals; fragrant. Extra fine.
- Reine Hortense.** Midseason. Large, flat; flesh to shell-pink; very fragrant. One of the finest.
- Samuel Hughes.** Late. Fine upright variety with unusual style and color combination—silver-pink. Excellent new variety.
- Sarah Bernhardt.** Late. Very large flowers of apple-blossom-pink, with silver-tipped petals. Vigorous.
- Solange.** Late. Large, compact. Outer petals delicate, waxy white, deepening toward the center with shades of golden brown. A strong, free bloomer.
- Venus.** Midseason. Pale hydrangea-pink; large; compact.

RED PEONIES

- Felix Crousse.** Midseason. The most pleasing velvety red, fading to lighter shades as the blossom fades.
- Francois Ortegat.** Midseason to late. Very dark rose-red with yellow stamens; large, on strong stems. Extra good.
- Karl Rosenfield.** Late midseason. Large, showy, rich velvety crimson. Color striking.

WHITE PEONIES

- Baroness Schroeder.** Midseason. Delicate flesh-pink; fading to white with suggestion of heliotrope and gold.
- Couronne d'Or.** Late. Cream-colored, compact and very desirable.
- Festiva Maxima.** Early. The grandest white Peony. The extra large flowers are pure white, except petals tipped carmine.

- Marie Jacquin.** "Water-Lily Peony." Semi-double; favorite with everyone.
- Mme. de Verneville.** Early. Desirable, free-blooming variety that should be in every collection.

SINGLE PEONIES

- Unusual bargains, 35c each; 3 for \$1.00.**
- Clairette.** Large white flowers of unusual beauty; prominent tuft of golden stamens.
- Duchess of Portland.** Delicate shade of flesh-pink; large.
- L'Étincelante.** Rose-pink, margined silver. One of the best.
- Perle Rose.** Light pink, petals edged silver-rose.
- Rosy Dawn.** Large, snow-white, with very delicate blush shading in the bud.
- The Moor.** Very attractive deep rich red of unusual beauty; stamens yellow and striking.

JAPANESE PEONIES

35c each; 3 for \$1.00.

- Akalu.** Guards deep American Beauty shade; petaloids conspicuous saffron-yellow, margined rose.
- Ruigegno.** Dark maroon, with petaloids of most pleasing yellow. Very showy.
- Snow Wheel.** Large, pure white petals and petaloids. Our best white Japanese variety.

SEDUM. Stonecrop. Low-growing plants with fleshy leaves and showy masses of flowers. Fine for rockery. August and September.

SEMPERVIVUM. House Leek. Fleshy-leaved mat-forming rosettes which produce heavy stemmed clusters of flowers. Excellent for dry, sunny places and rockery. Mixed.

SHASTA DAISY.

- Alaska.** Excellent. Large, glistening white flowers. May and June.
- Early Shasta.** Hardest with smaller flowers than other varieties.
- Mrs. C. Lothian Bell.** Large single white flowers, excellent for cutting.

STATICE latifolia. Sea Lavender. Minute purplish blue flowers in late summer. 2 ft.

SWEET WILLIAM. Old favorites, bearing their sweet clove-scented flowers in profusion during May and June. Mixed shades.

Newport Pink. The best salmon-pink to date.

TRITOMA. Red Hot Poker. Bright red cone-like heads from July until frost. 2-3 ft.

VERONICA. Speedwell. One of the best hardy perennials with various colored spikes. Fine for rockery, border and cutting.

V. incana. Deep blue silvery foliage. 12-15 inches. July and August.

V. longifolia subsessilis. Blue. One of the best. 18-24 inches. July and August.

V. spicata. Violet-blue. All summer. 2-2½ ft.

VINCA minor. Periwinkle or Trailing Myrtle. A trailing evergreen plant used as a ground cover under trees or other shady situations.

YUCCA filamentosa. Adam's Needle. Spikes of creamy white flowers borne on tall stems. Best for shrubbery border, large rockeries or planted in masses. June.

Sweet William

Vinca—Periwinkle

Shasta Daisy

Climbing and Creeping Vines

These are the draperies that Nature gives us to cover porches, arbors, fences, and to disguise unsightly buildings and old trees. All the varieties here named are strong growers, with either bright flowers in summer or brilliant berries in fall. Use vines freely to make the landscape more beautiful. They thrive almost anywhere, cost little, and give a large return in comfort and pleasure.

For Parcel Post and Insurance, add 10 per cent.

Euonymus Radicans

Ampelopsis

Ampelopsis quinquefolia engelmanni. Virginia Creeper. This is the Five-leaved Ivy that is so valuable for covering walls, fences, etc. It will grow anywhere and colors brilliantly in the fall.

35c each; \$1.50 for 5.

A. veitchi. Boston Ivy. The best of the self-clinging vines. Foliage is small, deep green, and very dense, covering any object completely. Colors beautifully in the fall. Slow to start, but vigorous when established.

35c each; \$1.50 for 5.

Bignonia

Bignonia radicans. Trumpet Vine. A vigorous, woody vine, bearing scarlet flowers followed by long pods. It is a native of this section, easy to establish, and grows luxuriantly. Valuable for covering any kind of shelter or rustic work.

35c each; \$1.50 for 5.

Celastrus

Celastrus scandens. Bittersweet. An unusually attractive native vine because of its showy berries in the fall and early winter. Vigorous.

35c each; \$1.50 for 5.

Clematis

Clematis jackmani. The most popular Chinese Clematis. Has large purple flowers. Exquisite when it can be grown.

60c each; \$2.50 for 5.

C. paniculata. The small-flowered, fragrant, white "star" variety that blooms so profusely. Easy to establish and attractive in foliage as well as blossoms.

35c each; \$1.50 for 5.

Every item in this catalog is true to name, and up to specifications in every way. Hillenmeyer stock with the Hillenmeyer guarantee is sold only direct from the nursery. We have no agents—you buy direct from the producers.

Should Any of Your Friends Be Interested In Our Catalog, Please Send In Their Names. A Copy Will Be Sent For the Asking.

Polygonum—Lace Vine

Euonymus

Euonymus radicans. Winter Creeper. A slow-growing vine that adheres to masonry and remains deep green all winter. 35c each.

E. radicans coloratus. Bronze Winter Creeper. A comparatively new vine, growing more rapidly than others of this family. It has long, vigorous shoots, well covered with small, sharply pointed leaves. Clings exceptionally well and makes an artistic effect on a bare wall or chimney. Turns a rich bronze during the winter months.

35c each; \$1.50 for 5.

E. radicans vegetus. Big-leaf Winter Creeper. Another evergreen clinging vine of moderate habit, perfectly hardy, and especially valuable because of the profusion of red berries that hang on for several weeks.

35c each; \$1.50 for 5.

Hedera

Hedera helix. English Ivy. The most popular evergreen vine. Has large, deep green, glossy foliage, and is unexcelled for covering walls in shady and cool places. Can be sheared into edging for walks or covering for graves, or used as a most satisfactory ground-cover under trees or in shady places; adds beauty and dignity.

25c each; \$1.00 for 5.

Lonicera

Lonicera japonica halliana. Hall's Japanese Honeysuckle. An evergreen, twining vine that is so much used for fences and trellises. Blooms continuously, is fragrant, and very easy to establish. Used largely to hold roadside banks from rain erosion, and will flourish in poor soil.

25c each; \$1.00 for 5.

L. sempervirens. Scarlet Trumpet Honeysuckle. Attractive, trumpet-shaped flowers of bright scarlet.

35c each.

Polygonum

Polygonum auberti. Silver Lace Vine. A new, quick-growing, twining vine with small, attractive foliage. The flowers are very small and lacy and when the plant blooms it is a perfect mass of silvery white; there is no other vine of anything like the same effect. Blooms from August to frost.

50c each.

Climbing Rose

For Solid Screen Effects

Virginia Creeper
Trumpet Vine
Honeysuckle
Kudzu Vine

Clematis Jackmani

Pueraria

Pueraria thunbergiana. Kudzu Vine. The most rapid-growing twining vine known today. It is marvelous how it will cover fences, pergolas, or similar objects. The large, purple flowers are sweetly scented. Belongs to the pea family, and the foliage is dark green.

35c each; \$1.50 for 5.

Wisteria

Wisteria sinensis. Chinese Wisteria. A rampant clinging vine that has the robust vigor of a wild grape and the matchless beauty of a rare exotic. Flowers in large, drooping clusters. There is so much complaint of Wisteria not blooming that we are offering, this year, plants that are grafted from blooming wood. This insures blossoms. We offer the Blue or White variety in 2-year-old plants that can be depended on, though Wisteria always needs to be well established to bloom freely.

60c each; \$2.50 for 5.

Tree Wisteria

These lovely vines are most effective when grown in tree form. Much more satisfactory than tree roses, and as standards, are unsurpassed. Both Purple and White.

4 to 5 ft., \$3.00 each.

Wisteria

HILLENMEYER *Kentucky Grown Fruit Trees*

Fruits—The Money-Makers Are Coming Back to Southern Farms and Gardens

Wisely, many are again planting fruits. Changes during the past few years have shown clearly that farmers and gardeners who had a few bearing fruit trees were making a little money—or if they did not sell the fruit, they certainly did not have to buy at the store or on the market at high prices. So, the man who "raised his own" was ahead of the game any way you look at it.

For many years we have given special attention to fruit trees and small fruit plants. This year we offer with great pride and confidence our Kentucky-grown trees, produced with the utmost care and skill, from fruiting trees of known parentage. Likewise, with equal pride, we point to our low prices for these high

quality trees—priced low because our costs have been lower. Hillenmeyer trees are good trees, honest trees, and sold direct from the nursery—not by agents whose commission you pay without getting a penny's worth of added value in the stock. As we sell direct to you we do not ask fancy prices.

We propagate our fruits under careful conditions, taking every precaution to have them true to name, for we believe dependability of variety is our very best sales argument. We guarantee every variety to be as described and hold ourselves ready to replace, without charge, any tree that accidentally proves untrue to name. In addition to this dependability, our trees are suited to nearby conditions as we test all varieties before offering them for sale.

Delicious

Summer Apples

DUCHESS. (Often called "Oldenburg"). An outstanding variety following Early Transparent, is equally productive, and best of its season. Ours is the "Red" strain. Early bearing.

EARLY HARVEST. Pale yellow; sub-acid. Regular bearer and the most popular of the older general-purpose varieties.

EARLY TRANSPARENT. Waxy yellow; tart; excellent. Very early bearer; productive. Valuable for either home or market. Blights on rich soil, however.

GOLDEN SWEET. Yellow. The best Sweet we know. Vigorous grower; productive. Hasn't a fault.

HYSLOP CRAB. The very best hardy Crabs, producing a heavy crop of tart, bright red fruits that are unexcelled for culinary purposes. Bears early and productively.

MAIDEN'S BLUSH. A grand old favorite. Waxy yellow, pleasing red blush. Ripens over a long period, making it valuable for home orchards.

POLLY EADES. A Kentucky developed variety, while not well known, is superior to Maiden's Blush. Plant this on our recommendation and you will never regret it.

No other fruit is so dependable and generally desirable as the Apple. They will thrive in almost any well-drained soil. Its period of ripening extends from early July until frost and then they can be kept through the entire winter. For family use there is no fruit so indispensable. With moderate care they will pay a handsome return on your efforts and investment. We have kept our list of varieties up to date and you can plant any of them with confidence.

Apples

HILLENMEYER APPLE TREES ARE FINE THIS YEAR AND YOU CAN'T FIND BETTER.

2- and 3-year-old trees:	Each	5	50
2½ to 4 ft.	\$0.35	\$1.50	\$12.50
4 to 5 ft.45	2.00	17.50
5 to 6 ft.55	2.50	20.00
6 to 7 ft. Super Size	1.00	4.50	40.00

Ask for prices on quantity lots.

Fall Apples

GRIMES' GOLDEN. The very best fall Apple. A recent survey showed this to be the most popular Apple of any season. Fruit golden yellow. Matures early and is heavy bearer. This variety is troubled with canker, which shortens the life of the tree. We offer "Double Grafted" Grimes' Golden at 25c extra.

WEALTHY. Large; shaded to dark red; quality good, tender. Productive. Early to bear, and very satisfactory.

WOLF RIVER. An attractive, large, striped Apple, ripening in September. Due to size it finds a ready market. Cooks well. Matures early.

Winter Apples

BALDWIN. Red; large; fine quality. Tree vigorous. The Eastern commercial Apple.

DELICIOUS. Large and uniform in size; distinct because of five lobes on blossom end. Quality unexcelled, and peculiar to it. Early and heavy bearer. For market and home it takes a high place.

JONATHAN. An early-bearing and long-keeping Apple; red; medium size, quality good. Tree never large, but productive.

McINTOSH. A fine early winter sort that has won its way because of its productiveness and extra high quality. Bright red; smooth. Plant it liberally in Kentucky.

PADUCAH. A Kentucky product which very much resembles the Rome Beauty. About two or three weeks earlier, with more color. Prolific and a regular bearer. This variety stands at the top of the list as to production at the Kentucky Experiment Station.

RED DELICIOUS. This is just like the old standard Delicious except that it has extra red color. Sold under other trade names but ours is the true type.

RED STAYMAN. An improvement over the ordinary Stayman as to color. Other than this it is the same.

ROME BEAUTY. Large; red; tender, sub-acid. Early bearer and productive. A popular sort in most sections.

STAYMAN WINESAP. Dark, rich red, indistinctly striped; larger than old Winesap. High quality; good keeper. Tree productive, stands drought. The most extensively grown and the most abundant bearer, with more good qualities in its favor than anything we offer for Kentucky.

TURLEY. A seedling of Winesap which it somewhat resembles. Conical, rich red and of highest quality. A recent introduction, bears early and is fast gaining popularity.

WINESAP. Medium sized, dark red, productive variety. Excellent quality; crisp and juicy; sub-acid.

YELLOW DELICIOUS. A yellow type of the old standard Delicious which has become deservedly popular throughout the country. Looks same and of highest quality.

YORK IMPERIAL. A late keeping commercial Apple, shaded red on yellow skin. Flesh firm. Tree healthy. Regular and heavy bearer. Plant for profit or for home.

APRICOT

TALBERT. Excellent quality. Bears early and selected for its hardiness. Each 4 to 5 ft. \$0.70 5 to 6 ft.80

Fruit Trees by Post

Due to their length, nothing larger than the 4- to 5-ft. trees can be sent by Post.

For Post and Insurance add 10%.

Hillenmeyer's Apples Are True to Name—the Best to be Had and They Cost No More.

Cherries

Not difficult to grow, but the trees are happiest in well drained, rich soil. The Sour varieties grow more readily than do the Sweets, but you can have both if the location is good. Be sure to plant the trees as soon as they arrive—don't let them lie around. Press the dirt firmly around the roots; tramp it **hard**. Prune the same as apples or pears but do not cut the central leader.

2- and 3-year-old trees:	Each	5	50
4 to 5 ft.	\$0.70	\$3.25	\$25.00
5 to 6 ft.80	3.75	30.00

CLUSTER AND SUB-ACID

You may plant one of these varieties, and you will be rewarded. This group seldom fails to bear a good crop.

EARLY RICHMOND. This old standard Cherry has been the favorite for years. The fruit is tart and very valuable for canning purposes. Yields nearly every year and reddens the tree with its wonderful crop. It succeeds everywhere Cherries will grow and is the earliest in season.

MAY DUKE. Ripens a little earlier than Early Richmond, and while not quite so vigorous in tree, the fruit is slightly superior. Has been tested and found worthy of a place in all Cherry plantings.

MONTMORENCY. Gradually supplanting Early Richmond because of its size. Except for being a little later it is practically the same. Not quite as acid; when ripe is good to eat from hand. The tree is hardy, blooming late, and frequently will make a crop when the sweet varieties fail.

SWEETS OR "HEART"

This group grows luxuriantly, makes a fine showing for a few years, and then if not in soil that is exactly suitable, may die. These varieties are the hardiest of the group.

BLACK TARTARIAN. Perhaps the most popular of the sweet varieties. Fruit is large, black, and heart-shaped. High quality. The tree is vigorous in suitable soil.

GOVERNOR WOOD. Few Cherries are superior to it in quality or productiveness. Fruit medium size, soft, and of fine flavor; pale yellow with blush.

YELLOW SPANISH. Later. Large, yellow, firm, and high quality. It is not quite as tender as some others, but the fruit can be adapted to a multitude of uses. Not planted as it should be.

Black Tartarian

Peaches

A home garden without Peaches? Can you imagine such a thing! Just think what you are missing—luscious fruit from late June to mid-October if you select an early, a midseason, and a late sort. One tree of each is better than none, but if you have space, plant five of each class. For a commercial orchard you need a special selection and several varieties—better write us and ask our advice.

PLANTING AND CARE

The Peach is the quickest maturing of fruit trees, often bearing the second year after transplanting. Plant only in well drained soil but otherwise follow methods recommended for other fruit trees.

When planting, prune very severely, removing all side branches to short stubs and head low. The tree gets top-heavy if allowed to develop a high head. Subsequent orchard pruning consists of shortening the terminal growth and keeping the tree compact and shapely.

The borer which hibernates right below the ground line and frequently girdles the trunk should be removed annually. A new chemical, Para-dichlorobenzine may be used to control this pest. Our orchard growing and nursery experience is always at your service. Write us your questions and we will try to help you.

Well grown 2-year-old trees:	Each	5	50
2½ to 4 ft.	\$0.30	\$1.25	\$10.00
4 to 5 ft.40	1.75	15.00
5 to 6 ft.50	2.25	20.00

Ask for prices on quantity lots

ARRANGED IN THEIR ORDER OF RIPENING

HILEY. (Free.) Follows Carman, and is an early Belle of Georgia. White flesh, firm, sweet, of good quality, and best of its season. July 30.

SOUTH HAVEN. (Free.) Better color and quality than Elberta. Larger and ripens 10 to 14 days earlier. Has been much harder than other yellow Peaches and because of our tests we recommend it highly. August 5th.

SUNGLO. A new selected strain of South Haven which we are offering for the first time. It is South Haven in all of its glory and then some. Stock limited. Five cents extra per tree.

BELLE OF GEORGIA. (Free.) White, with decided blush; excellent quality. Heavy and regular bearer. The best white-fleshed Peach for home or market. August 5.

HALE-HAVEN. (Free.) An excellent new Peach introduced by the Michigan Experiment Station. A cross between J. H. Hale and South Haven. Large, midseason, yellow with blush. Good quality tree, healthy and hardy. August 10.

EARLY ELBERTA. (Free.) Clear yellow, with blush; fine grained and sweet. Tree a strong grower with a tendency to thin itself, carrying moderate loads of fruit. August 10.

VALIANT. (Free.) A new, extra hardy outstanding variety of good quality. August 10th.

J. H. HALE. (Free.) Fruit large, yellow, almost covered with red; more highly colored than Elberta; flesh firm, melting, and of best quality. Ripens August 10 to 15.

ELBERTA. (Free.) Fruit large, yellow, shaded with deep red. Elberta has been the standard Peach for years, and is just as good today. More than 80 per cent of commercial plantings are of Elbertas. August 15.

HEATH. (Cling.) White, tinged next to the sun. A large, firm, juicy Peach of most pleasing flavor. Well known. October 1.

Elberta

MIKADO. (Free.) The best and most popular very early peach to-date. Medium size, round, yellow with red blush and of good quality. For best results should be planted with other varieties for cross-pollination. July 5 to 10.

CARMAN. (Free.) White, with red blush. Extra hardy. Bears every year, and when it fails all else fails, too. Tree a robust grower and produces heavily. Carman should be considered next to Elberta. We are partial to it. July 10 to 15.

GOLDEN JUBILEE. (Free.) A new, large, early Peach, highly recommended by the Kentucky Experiment Station and other leading authorities. Yellow with a distinct blush. Quality fine. July 15.

What Is Better Than Fresh Cherry Pie With the Cherries From Your Own Trees?

Pears

This old standard fruit is still being planted by many. Blight is its chief enemy, and as it is worse on deep, rich soil, do not over-stimulate by feeding. Planted in the back lawn it will make a beautiful tree in foliage, blossom and fruit.

2-year-old trees:	Each	5	50
4-5 ft.	\$0.70	\$3.25	\$25.00
5-6 ft.80	3.75	30.00

BARTLETT. August 15. The favorite eating Pear of America, East or West. Large; beautiful yellow, with soft blush; high flavor. Tree bears quite young. On account of its popularity everywhere it is the most sought after of the European Pears.

KIEFFER. September 10 to 15. The most popular Pear for our section. Fruit is large, golden yellow, sometimes tinted red on the sun-exposed side. Flesh is firm, crisp, juicy and for canning purposes it is especially prized. From the tree it is not good to eat, and to properly ripen, gather carefully and place in a dry place of even temperature. The quality improves and it is then desirable. For keeping longer, pack in shallow trays or wrap the fruit in paper and store in a room free from frost. In this manner it can be kept until Christmas.

LINCOLN. As blight-resistant as Kieffer, and bears regular crops. Perfectly hardy and quality almost equals Bartlett. Season of ripening about September 1. Plant with confidence. Considered by many the best of the Pears.

SECKEL. September 15. This small, high-quality, yellowish brown Pear is one of the most popular of the September fruits. Of melting, juicy, and sugary quality (frequently called the "Little Sugar Pear"). Tree is of slow growth but lives long and is needed in every home garden.

are
True To Name**

Bartlett Pear

Burbank Plums

Plums

Japanese Plums are best for general southern planting, but you cannot neglect Damson, Green Gage, and the newer Omaha. The trees grow almost anywhere—garden, chicken-run, or orchard. Usually the trees are loaded with fruit, so it is wise to thin the green fruit when about as big as an acorn. Prune the trees same as apples.

2- and 3-year-old trees:	Each	5	50
4-5 ft.	\$0.70	\$3.25	\$25.00
5-6 ft.80	3.75	30.00

(E) indicates European and (J) Japanese Plums.

ABUNDANCE. (J.) July. One of the best and hardiest of the Japanese varieties. Fruit is large, oval, and in color amber changing to cherry. Quality good. Tree hardy.

BURBANK. (J.) Late July. Later than Abundance. Fruit large, violet to light purple, with occasional shades of yellow. Flesh yellow, of excellent quality. For either canning or marketing this is the most popular sort. We believe it to be the hardiest and most prolific of the Japanese varieties.

DAMSON. (E.) A standard for years too well known to describe. Trees are upright in character of growth and usually bear great crops in congenial soil. Succeeds everywhere Plums will grow.

GREEN GAGE. (E.) Another outstanding old variety. It ripens in mid-August and its medium sized, yellow-green, high quality fruit makes it a standard by which others are judged. Tree moderate grower; healthy.

OMAHA. (Hybrid.) A promising sort, vigorous in growth and free from disease. Being an American-Japanese hybrid, it inherits hardiness and productiveness from each parent. Produces great crops of coral fruit, yellow fleshed and of good quality.

QUINCES

For preserves and jelly there is nothing better. Its delightful flavor and aroma have been admired for years. Every home should have a Quince tree.

Distances Apart to Plant Fruits

APPLES	30 to 40 feet	PLUM	25 feet
APRICOT	20 to 25 feet	PEAR	25 feet
CHERRY (Sweet)	30 feet	QUINCE	12 to 15 feet
CHERRY (Sour)	25 to 30 feet	GRAPES	8 feet
PEACH	20 to 25 feet		

	Plants	Rows
BLACKBERRIES	3 to 5 feet	6 to 8 feet
BLACK RASPBERRIES	2 to 3 feet	6 feet
RED RASPBERRIES	2 to 3 feet	5 to 6 feet
GOOSEBERRIES	4 to 5 feet	5 to 6 feet
CURRANTS	3 to 4 feet	5 feet
STRAWBERRIES	1 1/2 feet	3 1/2 to 4 feet
ASPARAGUS	1 to 1 1/2 feet	5 to 6 feet
RHUBARB	2 to 3 feet	3 to 4 feet

The above distances are approximate

Grape Vines

Other crops may fail but you never lose all the Grapes—unless the boys get them. Grapes are a sure crop. Vines bear every year, need little attention except training, lots of sunshine, and plenty of plant food. In the home garden, use sheep manure or bone meal; in the vineyard, use well-rotted manure.

Black Grapes

CONCORD. The best general-purpose Grape grown. Berry large; bunches shouldered and compact. Should be the "backbone" of your planting. Special prices on large quantities.

MOORE'S EARLY. An extra-early variety. Medium bunch; large block berry. Vine is hardy, very reliable, and does well wherever planted.

WORDEN. A seedling of Concord. Better quality; ripens 10 days earlier. Bunch and berry large; compact. Not quite so hardy or long-lived, but is needed in every collection.

White Grapes

MARTHA. Medium berries with soft skins which can be eaten. An old standard.

NIAGARA. The best white Grape. Bunch and berry large, meaty and juicy; flavor perfect. Medium season.

PORTLAND. The best early white for home and market. Vine moderately vigorous, fruit large and of excellent quality.

Red Grapes

CACO. An amber-red variety of unusual quality. It is a cross between Cotowba and Concord and is different from either. Vine vigorous and bears very early. Fruit sweet.

CATAWBA. Standard late red Grape that has lost none of its popularity. Season and quality make it indispensable.

DELAWARE. A well-known red Grape. Bunch and berry small; compact. Flavor unsurpassed. Must be given good, rich soil.

LINDLEY. Of exceptionally good quality; large; ripening in midseason. Vigorous of vine and hardy.

LUCILLE. A new Grape of decided merit. Bunches very compact; color light red. Very hardy. Likely to overbear if not pruned severely.

LUTIE. Best extra early Grape of its color, and good size.

WYOMING. Small berries with compact shouldered bunches. Distinct flavor and will produce more fruit than any variety we sell. Good for wine.

	Each	5	50
2-year-old vines	\$0.25	\$1.00	\$7.50

For Postage and Insurance, add 10 per cent.

As Experienced Fruit Growers We Suggest

That you plan for a succession of fruit, increasing quantities where you expect to market or store. It is inadvisable to plant too many varieties in the average orchard. There is no reason why you cannot have fresh fruit from the time that cherries ripen in May until well into the winter. We will help you plan your list if you will ask us.

That you cultivate your newly planted trees, for it is just as important to cultivate them as it is to cultivate a tomato or tobacco plant. Only after the tree has become well established should cultivation stop. Even then, your trees will respond to fertilization and cultivation.

That you feed young trees to promote health and vigor. Nitrate of soda, sulphate of ammonia, bone meal, manures, or similar soil-builders applied in moderation often spell the difference between success and failure. Strong, vigorous trees can stand unfavorable weather conditions, frost, and even disease. Good soil means early maturity and heavy yields.

That where space is scarce, you plant quick-maturing trees like Peach, Plum, and Cherry, in the center of the squares between late-maturing trees. The former should be taken out when the permanent trees begin to crowd. Don't plant too closely.

That you renew your plantings of Peach trees every four or five years to keep a continued crop coming on.

HOW TO PRUNE. In pruning Apple, Plum, Cherry, and Pear trees, cut the side branches to 6- to 8-inch stubs and do not leave more than five to a tree. See that these are distributed around the trunk. The Peach tree requires a little more severe pruning. One-year trees are simply headed to whatever height they are wanted. Try not to have two branches nearly opposite. They will form a bad crotch when the tree is older.

Heeling In Trees and Shrubs

Heel in your trees as soon as received. Dig a trench deep enough and wide enough to take the root-system and then cover the roots, firming the soil so as to contact each root. If some of the trunk (or branches, in case of shrubs) is covered with soil, the protection is double. A little water applied to dry soil is helpful. Trees heeled in may be kept several weeks in perfect condition.

Concord Grapes

HILLENMEYER'S Famous

Kentucky Blue Grass Seed

Here in the heart of the famed Blue Grass Section of Kentucky the best seed in the world is produced. Hillenmeyer's seed is from the best crops and of highest quality. Why gamble with poor seed—plant the best!

Special Lawn Mixture

For sowing new lawns or where you have a thin stand we recommend our Special Lawn Mixture. This consists of Blue Grass and other varieties for quicker effect.

Sow 2-3 lbs. to 1000 sq. ft. on thin lawn; 4-6 lbs. to 1000 sq. ft. on new lawn.

Prices on Blue Grass or Lawn Mixture:

1 lb.	\$0.35
3 lbs.	1.00
10 lbs.	3.00

Ask for prices on larger quantities. For Postage and Insurance, add 10%.

SEED POTATOES

We are making a specialty of Seed Potatoes, and in the spring will send out a catalog offering these at market prices.

Ⓒ { Don't Overlook Our Special Line of } Ⓕ
Fertilizers For All Kinds of Plants.

Premier

STRAWBERRIES

As Strawberry plants heave out of the ground when fall planted, we advise and **sell only in the spring.** We issue a special booklet then with full cultural instructions. We will book your order now and bill and ship you at the proper planting time. We repeat, fall planting is not satisfactory.

Eldorado

RASPBERRIES

We have tested many kinds of Raspberries and after due consideration are listing only three. These have proven best under our Kentucky conditions and we recommend them with confidence. Raspberries should be planted in every home garden as they require small space and produce an abundance of our finest table fruit. Contrary to general belief, Raspberries and Blackberries want good rich soil.

CUMBERLAND. Black. Decidedly the best of it's color to date. Large, prolific, sweet and a good grower.

LATHAM. Red. Fruit large, of finest quality and a good clear pink. Plants robust and hardy. While Chief is a few days earlier, Latham will produce 50 per cent more fruit. The best red.

ST. REGIS. Red Everbearing. While we do not "bank" on its everbearing qualities, it is the best of this type. It ripens early in the season just before Latham and with good growing conditions will give quite a quantity of fruit during the late summer and early fall.

Prices all Raspberries:

Sold only in bunches of 25.

| 25 for | \$ 1.00 |
| 100 for | 3.00 |
| 500 for | 10.00 |
- For Post and Insurance, add 10 per cent.

BLACKBERRIES

ELDORADO. Has stood at the head of the list for many years, and its position still is not in danger. It is later than Early Harvest, is not so subject to disease, and makes heavy, vigorous canes that hold the leaves and fruit well. Given a favorable season with moisture, or grown under mulch, it produces very large, long fruits that are a pride and joy to the grower. Plant with confidence.

EARLY HARVEST. Extra earliness and productiveness make this the leading commercial and home variety. Is through with its crop when the wild ones begin to ripen. Hangs well onto the canes and is a money-maker.

Prices of Blackberries:

- | | |
|---------------|---------|
| 25 for | \$ 1.00 |
| 100 for | 3.00 |
| 500 for | 10.00 |

Houghton

CURRENTS

RED DUTCH. By far the most productive of the many kinds we tested. Color a brilliant red; large berries borne in long clusters along the stems; quality excellent. The white varieties have proved worthless in this climate.

GOOSEBERRIES

DOWNING. Fruit almost round, large, and juicy; best quality; whitish green color. Does especially well in the North.

HOUGHTON. Round, medium size; dark red when ripe; juicy, sweet. Thin, smooth skin. The bush is hardy, very productive, free from mildew, and the best for general purposes in this section.

- Prices of Currants and Gooseberries:**
- | | |
|---------------|--------|
| Each | \$0.25 |
| 10 for | 2.00 |
| 100 for | 15.00 |

For Post and Insurance, add 10 per cent.

ASPARAGUS

WASHINGTON. This is the best known variety. It is a strong grower, producing stocks of large size, fine quality, and tender. The fact that it is rust-resistant makes it the ideal Asparagus for all. Our plants, produced on heavy soil, are superior to the little seedlings grown in sand. Every plant is graded and all are large, fleshy roots that, with proper care, will be ready to cut the second year. We are large growers of roots and can make attractive prices to commercial growers. These plants, after 2 years' acclimation in our soil, will grow off much better than imported plants.

Strong 2-year plants:

- | | |
|---------------|--------|
| 25 for | \$0.50 |
| 50 for | 1.00 |
| 100 for | 2.00 |

Ask for special prices on larger quantities. For Post and Insurance, add 10 per cent.

RHUBARB

EXCELSIOR. Very early, with long stem. Plants vigorous and dependable. Planted 4 by 3 feet, with eye 4 inches below the surface, on clean soil, success is assured.

Cumberland

LILIES + NARCISSUS + GRASS SEED

NO TULIPS FROM HOLLAND THIS YEAR. Due to war no Holland Bulbs can be imported but we are offering the following American items of highest quality.

DUTCH IRIS

Valuable bulbous type, earlier, larger and superior to the Spanish or English Iris. Excellent for cutting.

- HART NIBBRIG. Clear blue.
 - WHITE EXCELSIOR. The best white.
 - YELLOW QUEEN. Very tall, golden yellow.
- } 50c doz.; \$4.00 per 100.

LILIES

These grand flowers are admired by all. We offer a selected list of the best variety which bloom from May to September.

- LILIUM CANDIDUM.** Madonna Lily. An old favorite. Pure white, fragrant blossoms with yellow centers opening in May and June. Hardy, easily grown but should be planted here for autumn planting. 25c each; \$2.50 per doz.
- LILIUM HENRYI.** One of the best, vigorous and bearing more than twenty flowers of a golden yellow color. Fine foliage. Does well in both light and heavy soil. 25c each; \$2.50 per doz.
- LILIUM REGALE.** The regal Lily. The most popular Lily that grows. Large white flowers opening in the middle of June. 25c each; \$2.50 per doz.
- LILIUM RUBRUM.** Speciosum magnificent. Large, fragrant flowers of a deep pink color with every deep pink dot. 25c each; \$2.50 per doz.
- LILIUM SPECIOSUM ALBUM.** A pure white form of the speciosum. Large, fragrant flowers. 25c each; \$2.50 per doz.
- LILIUM FLNUIFOLIUM.** "Queen of white lilies." A form of the speciosum with large, waxy petals of waxy texture. Deep pink color. 20c each; \$2.00 per doz.
- LILIUM TIGRINUM.** Tiger Lily. The large colored flowers of this variety are very showy and glossy. This Lily is very robust and grows in any soil. 20c each; \$2.00 per doz.

NARCISSUS

- EMPEROR.** A magnificent variety. The earliest flowering variety. Large, double flowers of a pure white color that stay overhead.
- KING OF THE NARCISSUS.** This grand specimen of all the narcissus is a variety of the double variety. It is a beautiful variety, elegantly recurved, with a beautiful color of the petals.
- EMPEROR'S KNOTHER.** Creamy white variety. Large, double flowers.
- EMPEROR'S KNOTHER.** Almost all double variety. Large, double flowers.
- EMPEROR'S KNOTHER.** Double variety. Large, double flowers.

Plant Food and Mulching Materials

How We Do Business

Bone Meal

A safe and satisfactory fertilizer for many purposes. Not high in plant food but does not burn nor injure either roots or foliage. Rather slow in action but lasts a long time. Use a handful to each small plant or 25 to 30 pounds per 1000 square feet.

10 lbs., 50c; 25 lbs., \$1.00; 100 lbs., \$3.50.

"Chicknure"

A Hillenmeyer combination of chicken manure and peat moss, finely ground and dehydrated. An excellent well-balanced plant food and soil conditioner. Do not put in direct contact with roots. Work in soil or use as a top dressing. Use 50 to 100 pounds per 1000 square feet.

25 lbs., \$1.00; 50 lbs., \$1.75; 100 lbs., \$3.00.

Golf Fertilizer

(Swift's 12-6-4)

After years of experimenting, Swift & Co. have prepared this special fertilizer which is recommended for large estates and golf courses. A high grade, well-balanced plant food which has given wonderful results. Water-in if grass is tender, or apply just before a rain or run the back of a rake over the blades of grass after applying. Use 10 to 15 pounds to 1000 square feet.

25 lbs., \$1.50; 50 lbs., \$2.50; 100 lbs., \$4.00.

Peat Moss

No other material is quite its equal for soil-conditioning. It will retain 6 to 10 times its dry weight in water, and is free of all weed seeds. As a mulch, especially for Roses and perennials, it has no equal. Sold in bales of approximately 20 bushels which will cover 300 square feet 1 inch deep. Spaded in with manure it has the ability to absorb enormous amounts of fertility which the plants readily take up. Indispensable to the good gardener.

Imported. (Very scarce.) \$5.00 per bale.
Domestic. Peat O' Maine. \$3.75 per bale; 5 for \$17.50.

Sheep Manure

One of the best organic plant foods. Can be used for almost all purposes at any time. Excellent for top dressing and incorporating in the soil. Not especially high in food elements but well balanced and valuable for humus. Use 50 to 100 pounds per 1000 square feet. 25 lbs., \$1.00; 50 lbs., \$1.75; 100 lbs., \$3.00.

Sulphate of Ammonia

Contains only nitrogen which is one of the most important elements. Encourages rapid, succulent growth and where the other essential elements are present will give wonderful results. Tends to create a slight acid condition. Use 10 pounds to 1000 square feet.

10 lbs., 50c; 25 lbs., \$1.00; 100 lbs., \$3.50.

Turf Builder

(Scott's 10-6-4)

This is especially made for feeding grass, though it can be used whenever a complete fertilizer is needed. It is not all chemical but contains fifty per cent vegetable matter, thereby giving immediate and lasting results. Because of its concentration will go much farther than most other fertilizers. If grass is tender, "water-in." Can also be used for tree feeding and for this we recommend three (3) pounds per diameter inch. For broadcasting use 10 to 20 pounds per 1000 square feet. 25 lbs., \$2.00; 50 lbs., \$3.50; 100 lbs., \$6.00; 500 lbs., \$25.00.

Vigoro

Vigoro is not just an ordinary fertilizer but a complete balanced, scientifically prepared plant food containing all eleven of the elements necessary for proper development. Use 25 to 50 pounds per 1000 square feet on lawns, one handful to each square foot around roses, shrubs and evergreens. Water-in after applying. 10 lbs., 85c; 25 lbs., \$1.50; 50 lbs., \$2.50; 100 lbs., \$4.00.

Delivery

No charge for local delivery in city and subdivisions adjacent thereto. Truck delivery beyond this can usually be arranged satisfactorily, depending on quantity and distance. On orders to be shipped, prices are f. o. b. Lexington depots.

Prepay Transportation Charges

For Parcel Post and Insurance, add 10 per cent of your order, on all nursery stock which can be sent through the mails. Fertilizers are excepted. For express, truck or freight shipments, add 10 per cent on everything except shade trees and balled and burlapped plants. On shade trees, add 15 per cent. On balled and burlapped stock, add 20 per cent.

When stock is ordered by Post, we reserve the right to send by other carriers if too large.

Guarantee

We guarantee every item to be true to name, up to grade and in good condition when it leaves here. As there are so many forces beyond our control, such as weather, soil and care, which may cause stock to die, we cannot be responsible for losses which occur. However, we will absolutely refund or replace, without charge, any stock which is not satisfactory if complaint is made upon arrival.

Substitution

When out of a variety of fruit trees or roses we sometimes substitute, giving you the closest to it. If this is not satisfactory, mark "No Substitutes" on your order.

No Agents

We have no agents. All selling contacts are by appointment only. Call or write us if you wish one of our men to call on you.

Many transient salesmen represent themselves as being our agents and adopt many ruses in proof of this statement. In view of the fact that nursery stock is so perishable, must be handled promptly, must be grown right, must be carefully propagated to insure trueness of variety, we have held tenaciously to the same policy for 99 years—no agents. You can be assured of Hillenmeyer stock only by direct order.
